DESCRIPTORS	Academic Achievement; Educational Finance; *Elementary Secondary Education; *Public Schools; *School Districts; *School Personnel; State Programs; *Student Characteristics; Tables (Data); Taxes
IDENTIFIERS	*Texas

ABSTRACT

This is the eighth edition of "Snapshot," providing information about students, student performance, staffing, and financing in Texas public school districts. This annual summary is a source of information for anyone interested in the Texas public education system. The publication begins with statistical highlights that provide an overview of education at the state level. This narrative is followed by a listing that shows 87 different items of information for each of the more than 1,000 school districts in the state. The state-level section, "Statistical Highlights," discusses the broad areas of administrative units, students, student performance, staff, and finances. The "Detailed Statistics" section provides extensive information on the same broad areas for each district. The 87 data items are summarized for groups of school districts and individual district values for all data items are listed. School-level data are not included. Five appendixes define the data items, list data sources, provide a bibliography, present endnotes, and list districts alphabetically. (Contains 24 exhibits and 5 appendix exhibits.) (SLD)

SNAPSHOT '95 EVALUATION FORM

1. In what primary role do you use *Snapshot* data?
   - ____ School Administrator
   - ____ Parent
   - ____ Teacher / Educator
   - ____ Researcher
   - ____ Business Person
   - ____ Legislator / State Government
   - ____ Community Leader / Other Policy Maker
   - ____ Professional Organization Member
   - ____ Other

2. Please rate each section of *Snapshot* using the following scale:

Very Unhelpful	Unhelpful	Neutral	Helpful	Very Helpful
1	2	3	4	5

   - ____ *Statistical Highlights* (pp. 2 to 29)
   - ____ Summary Tables for District Size, Community Type, Tax Effort, Property Wealth, and ESC Regions (pp. 32 to 49)
   - ____ *Distribution Statistics* (pp. 50 to 55)
   - ____ *District Detail* (pp. 56 to 349)
   - ____ *Item Definitions* (pp. 350 to 356)
   - ____ Other ____

3. Of the following six categories, circle the letter indicating the topics that you use the most. Circle all that apply.

	Item Numbers
A. District Characteristics	#1– #3
B. Students	#4–#17
C. Performance	#18–#30
D. Staff	#31–#45
E. Teachers	#46–#60
F. Finance	#61–#87

4. From the 87 items in the *Detailed Statistics*, list the individual items that you use most, by item number.

   ____ ____ ____ ____ ____

5. How many additional people use your copy of *Snapshot*? ____

6. If stored in a library, how often is *Snapshot* borrowed in a year?

   ____

Please use the following scale to respond to the statements below:

Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
1	2	3	4	5

	Rating
7. The visual presentation of the material is good.	____
8. The organization of the book is good.	____
9. Finding information in the book is easy.	____
10. The information in *Snapshot* is useful.	____
11. The information presented is clear and easy to understand.	____
12. The quality of data is good.	____
13. The narrative and exhibits in the *Statistical Highlights* section provide an understandable overview of public education in Texas.	____
14. The level of detail in the *Statistical Highlights* section is adequate for my needs.	____
15. The level of detail in the *Detailed Statistics* section is adequate for my needs.	____

PLEASE ANSWER THE REMAINING QUESTIONS ON THE BACK OF THIS PAGE.

Fold in thirds, attach postage, and mail. If you need more space, please attach other pages and use an envelope to mail. Surveys received before **June 1, 1996**, *will be used for developing the 1996 edition of* ***Snapshot***.

16. Approximately how often do you refer to *Snapshot* within a year? ________

17. Where did you learn about *Snapshot*?

________ School District
________ Board Member
________ Legislator
________ Texas Education Agency

Snapshot '95

1994–95 School District Profiles

Texas Education Agency

Division of Performance Reporting

Office of Policy Planning & Research

Winter 1996

Snapshot '95, the eighth edition of this publication, provides information concerning students, student performance, staffing, and financing of Texas public school districts. This annual summary can be a useful source of information for all individuals interested in examining the progress of the Texas public education system in improving student achievement.

In 1995, the Texas Legislature rewrote the education code to continue the movement toward increased local school district flexibility, combined with state-level accountability for student performance. At the end of 1994–95, the number of high-performing schools and districts was significantly higher than the previous year. The number of low-performing schools and districts also went up, primarily because of more rigorous accountability standards put in place in 1995.

In order to understand the condition of education in Texas, I encourage you to become familiar with the material contained in *Snapshot '95*. Each citizen of the state should take an active part in improving the education system for all students. The information provided in this document is essential to understanding the characteristics of Texas public education, the strides our educators and students have made, and the goals yet to be achieved.

Sincerely,

Mike Moses

Mike Moses
Commissioner of Education

ACKNOWLEDGEMENTS

The preparation of this document and the related *Pocket Edition* would not have been possible without the assistance of many people. First, appreciation goes to the staff of local school districts and regional Education Service Centers who compile and report the vast majority of the information contained in this document. The quality of the data they provide directly affects the quality and usefulness of this document.

Next, many Texas Education Agency staff, in addition to the project staff, deserve credit for generously contributing their time to this effort. These include Rick Battaile, Didi Garcia, Omar Garcia, Linda Hargrove, Shannon Housson, David Jacob, Lynn Mellor, Esteban Reyes, Maureen Scheevel, J. Robert Scott, and Joe Wisnoski.

Thanks also go to the students and staff of the following schools for allowing photographers Jack Brown and Diane Hernandez to visit their campuses: Jose Cardenas Developmental Center and H.K. Williams Elementary School of Edgewood ISD, in San Antonio; Pease Elementary School and Porter Middle School of Austin ISD; and Lake Travis High School of Lake Travis ISD.

INTRODUCTION

Snapshot '95: 1994–95 School District Profiles provides a detailed look at public education in the State of Texas for the 1994–95 school year. Reflective of the diversity of the state, school districts in Texas exhibit extreme differences in almost every way: size, property wealth, percentage of low-income students, and the ethnic composition of students and staff. *Snapshot '95* captures this diversity and provides readers with the basic information needed to assess the differences, and the strengths and weaknesses, among the various school systems.

Published annually since 1987–88, *Snapshot* presents a variety of information in a consistent format. Changes in this edition are minor. An evaluation form, located just inside the front cover, provides an opportunity for readers to influence future editions.

ORGANIZATION OF THIS BOOK

Snapshot '95 begins with a narrative describing state-level statistics. This narrative is followed by a listing that shows 87 different items of information for each of the more than 1,000 school districts in the state.

The state-level section, *Statistical Highlights*, discusses the broad areas of administrative units, students, student performance, staff, and finances. This section covers both the current year and historical trends, and includes supporting exhibits.

The *Detailed Statistics* section provides extensive school district information on the same broad areas discussed in the *Statistical Highlights*. This section consists of three parts.

First, 87 data items are summarized for groups of school districts categorized by size, by a rural versus urban classification, by tax effort, by property wealth per pupil, and by Education Service Center (ESC) region.

Second, the distribution of these items is presented in tables showing their highest, lowest, and median values. In addition, values at the 1st, 5th, 10th, 25th, 75th, 90th, 95th, and 99th percentiles are shown. This section is labeled *Distribution Statistics*.

Third, individual school district values for all data items are listed, followed by a state summary. This section, titled *District Detail*, is in county name order with districts arranged alphabetically within each county. The 87 items span six pages; therefore, a new set of districts is presented every sixth page.

School-level data are not provided in *Snapshot*. For instructions regarding how to obtain selected school-level information, see "For Additional Information" on page *iv* of this publication.

Snapshot '95 concludes with five appendices. Definitions of the data items are listed in order by the item number in the *Item Definitions* appendix. The second appendix, *Data Sources*, lists the sources of data in alphabetical order by the abbreviated labels used throughout the document. Each major source of data is described and accompanied by a listing of associated data items and exhibits. A selected list of *Bibliographic Sources* follows in the third appendix.

Endnotes, the fourth appendix, is intended to clarify terms that are not thoroughly addressed in other parts of the document. The final appendix lists school districts in alphabetical order by name. This appendix, *District Listing*, will help readers locate a particular district in the *District Detail* by relating the district name to the appropriate county.

OVERVIEW OF DATA SOURCES

The vast majority of data in this document is reported to the Texas Education Agency (TEA) by school districts. The fall 1994 data collection of the Public Education Information Management System (PEIMS) is a primary source of data. Information obtained from the Property Tax Division of the Comptroller of Public Accounts (CPTD) for the 1994 calendar year, and 1994 and 1995 student test scores which are reported to the TEA by the testing companies are also included.

AGENCIES OF PUBLIC EDUCATION

CENTRAL EDUCATION AGENCY

The Central Education Agency, composed of the commissioner of education, the State Board of Education (SBOE) and the TEA, guides and monitors public education in Texas.

The SBOE and the commissioner of education provide leadership in many areas of Texas public education. The commissioner of education is the educational leader of the state who administers the implementation of education policy. Senate Bill 1, passed by the 74th Texas Legislature, modified the areas of responsibility between the SBOE, the commissioner, the agency, and other state government entities. In addition, that legislation created a State Board of Educator Certification, which will be responsible for educator preparatory programs and assessments.

The SBOE is comprised of 15 elected members representing various regions of the state. One member is appointed chair by the governor. Dr. Jack Christie, appointed chair by Governor George Bush in January 1995, is currently serving the second year of his two-year term. A map showing 1994–95 SBOE district boundaries is included in the *Endnotes*.

The TEA, located in Austin, Texas, is the administrative unit of the Central Education Agency. Under the management of the commissioner of education, the TEA accredits school districts, operates research and information programs, monitors for compliance with federal and state guidelines, and serves as a fiscal agent for the distribution of state and federal funds. TEA operational costs are supported by both state and federal funds. In 1994–95 TEA employed 1,069 staff. Less than half of all agency positions are funded with state dollars (44 percent). The remaining 56 percent are funded from federal contracts and dedicated fees (44 percent and 12 percent, respectively).

LOCAL SCHOOL DISTRICTS

While the SBOE and the commissioner of education provide leadership for education, much of the control of public schools remains with the 1,045 local school districts. Statute grants any responsibilities not specifically assigned to the SBOE or the TEA to the local school districts. Districts serve students in grades pre-kindergarten through twelve. There are almost 6,500 public school campuses in Texas, and over 60 percent of these serve students in the elementary grades.

The number of campuses in a district varies greatly, depending primarily on the total number of students enrolled in the district. The majority of districts, 57 percent, have three or fewer cam-

EXHIBIT 1

Number of Students by Campus Type

Campus Type	Total Students	Total Campuses	Pct. of Campuses	Median Student Count	Smallest to Largest
High School	929,165	1,228	19.0%	380	1 to 3,823
Junior High School	215,263	325	5.0%	679	1 to 2,011
Middle School	580,218	898	13.9%	626	4 to 1,769
Elementary School	1,874,940	3,542	54.8%	521	1 to 1,434
Elementary & Secondary Combined (K-12)	70,610	472	7.3%	88	1 to 2,002
State of Texas	3,670,196	6,465	100.0%	501	1 to 3,823

Schools in Texas range in size from 1 to 3,823 students. Half of the campuses in the state have fewer than 501 students. Elementary schools make up 54.8 percent of all campuses in Texas and serve 51 percent of all students.

puses—typically one elementary school, one middle school, and one high school. *Exhibit 1* presents campus and student counts for each school type. Campuses are typed according to the range of grades they offer. *Exhibit B* in the *Endnotes* provides more information about the grades offered in each of these categories.

Districts in Texas are classified according to governance structure and the ability to raise local revenue. The three types of districts are defined as follows:

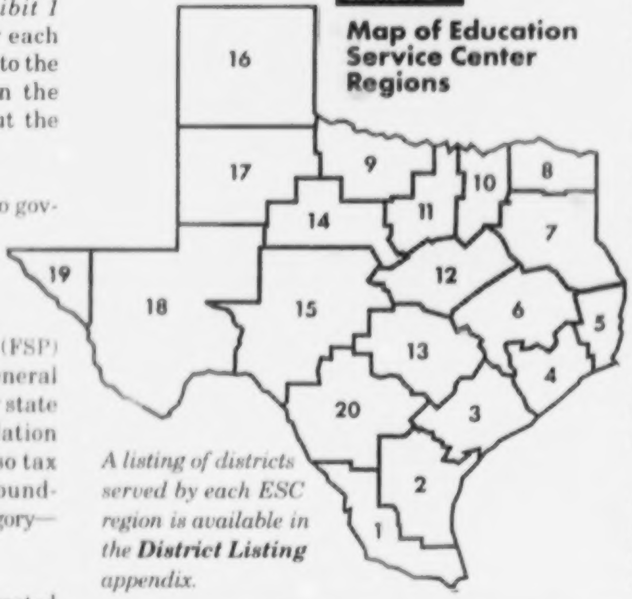
1) *Regular Foundation School Program* (FSP) *Districts*, or districts created under general statutory authority that are eligible for state funding assistance under the Foundation School Program. These districts may also tax property within their geographic boundaries. Most districts fall into this category—1,039, or 98 percent in 1994–95;

2) *Special Statutory Districts*, or districts created by a special legislative act but not administered by a state government agency. These districts have no taxable property. They include the public schools associated with military bases in the San Antonio area and the Masonic Home in Fort Worth. There are six of these districts, and;

3) *State-Administered Districts*, or districts created by a legislative act which are both funded and administered by a state government agency. Most of these 11 districts are administered by the Texas Department of Mental Health & Mental Retardation.

EXHIBIT 2

Map of Education Service Center Regions



A listing of districts served by each ESC region is available in the ***District Listing*** *appendix.*

Snapshot '95 includes data for the 1,045 regular FSP and special statutory districts only. State-administered districts do not have the same reporting requirements and are not included.

REGIONAL EDUCATION SERVICE CENTERS

The 20 regional ESCs provide basic services to school districts within defined geographic boundaries. Differences exist among the ESCs in terms of the number and characteristics of their member districts. However, all ESCs are expected to furnish services that support improved student achievement in the districts within their boundaries. Some service centers provide special services to districts statewide. *Exhibits 2* and *3* show the locations and sizes of ESCs.

Assistance is targeted to those campuses in the greatest need of improvement and support. To this end, the commissioner continued funding in 1994–95 to provide at least two field service agents in

EXHIBIT 3

Number of Districts by Education Service Center Region

Region		Number of Districts	Region		Number of Districts	Region		Number of Districts
1	Edinburg	38	8	Mt. Pleasant	48	15	San Angelo	43

6	Huntsville	56	13	Austin	56	20	San Antonio	51
7	Kilgore	97	14	Abilene	43	Total		1,045

each region. The field service agents work closely with school districts to help solve problems related to student achievement and to facilitate communication between districts and the agency. The commissioner approves services and budgets of ESCs, as well as performance contracts.

The service centers collaborate with districts to provide technical assistance in the areas of accreditation and curriculum, professional staff development and administrator training, and the implementation of PEIMS. Service centers also provide schools with instructional technology, data processing services, and assistance in program improvement in areas such as bilingual education, special education, gifted and talented education, and programs for at-risk students. A regional certification officer provides technical assistance on teacher certification matters to schools within the region.

Senate Bill 1 transferred some responsibilities from the TEA to the service centers. Many technical assistance functions and the mentor networks are now assigned to the ESCs.

Statistics for all 87 items are summarized to the regional level in the *Detailed Statistics*. Additional information about the service centers is available from the agency's Regional Education Service Center Support Unit.

The various agencies of public education work together to provide a successful system of instruction in an extremely diverse state. The central education agency, the local school districts, the ESCs, and a number of other associations and organizations committed to educational excellence strive to meet the challenges of providing appropriate educational services to all the schoolchildren of Texas.

STUDENTS

DIVERSITY

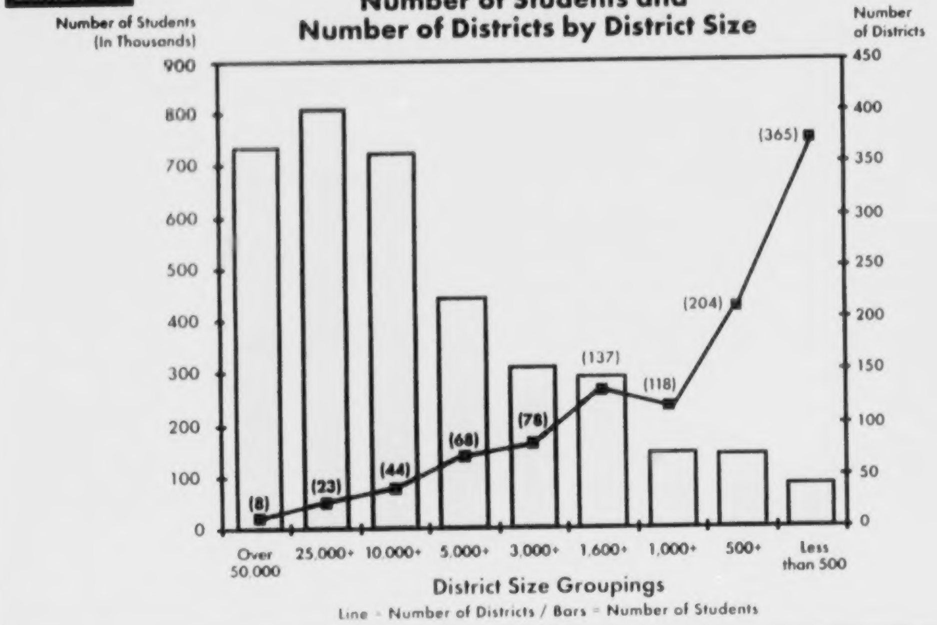
The nearly 3.7 million public school students in Texas are served in markedly differing school settings. For example, in 1994–95, only three students attended school in the Allamoore Independent School District located in far west Texas, while over 200,000 students received instruction at 263 school sites in the Houston Independent School District, the largest district in the state. The eight largest districts, those with over 50,000 students each, serve 20 percent of all Texas public school students, while the smallest 365 districts, representing 35 percent of all districts, enroll less than three percent. The inverse relationship between the number of districts and the number of students enrolled is a defining characteristic of the Texas public school system. See *Exhibits 4* and *5*.

The ethnic distribution of students varies greatly across the state and appears to depend in part on geography and on the size of the district and type of community it serves. Statewide, 53 percent of all students are from minority ethnic groups. Districts in major urban areas serve an 81 percent minority student population while districts in rural areas serve a population that is only 31 percent minority. The highest percentages of Hispanic students are found in the Edinburg ESC region at the southernmost tip of the state (94.5 percent), and in the El Paso region in far west Texas (81.4 percent). The largest percentage of African American students, 30.3 percent, is in the Beaumont region. The highest percentages of white students are found in the north central and eastern regions of the state.

The proportion of students with special needs also varies across the state. One indicator of need is the economic status of the child. Although the state of Texas does not levy personal income taxes and has little information about family earnings, student eligibility to participate in the national free or reduced-price lunch program is one indicator of student economic status. Districts report that approximately 46 percent of Texas public schoolchildren are eligible to participate in this program. Higher concentrations of economi-

EXHIBIT 4

Number of Students and Number of Districts by District Size



The eight largest districts have a combined enrollment of over 724,000 students while the 365 smallest districts enroll fewer than 94,000 students. The largest districts are those having more than 50,000 students each, while the smallest districts enroll less than 500 students each.

cally disadvantaged students are found in major urban districts and in districts with higher percentages of minority students. The lowest percentages of economically disadvantaged students can be found in districts suburban to the major urban districts. As one would expect, districts with lower property wealth have higher percentages of economically disadvantaged students.

Student participation in special programs such as bilingual or career and technology (vocational) education differs by community type, district size, and geographic location. A greater percentage of students in rural districts are enrolled in career and technology courses—almost 22 percent—compared with 13 percent in major urban districts. By far, the highest percentages of students in bilingual or English as a second language (ESL) programs are enrolled in the Edinburg and El Paso service center regions with 38 percent, and 25 percent, respectively. These figures are well above the state average of 11 percent.

STUDENT POPULATION GROWTH

During 1994–95, the 1,045 regular and special statutory districts in Texas served 3,670,196 students in pre-kindergarten through grade 12. This number of students represents a 1.9 percent increase from the prior year, the same rate of growth experienced between 1993 and 1994. Of all students in 1994–95, nearly 85 percent were served the previous year and the remaining 15 percent were newly enrolled students.

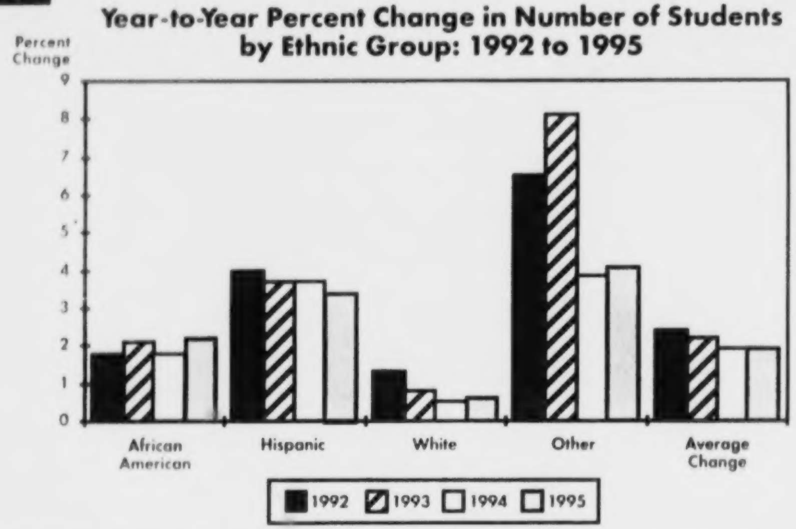
As demonstrated in prior years, the majority of districts continue to show enrollment increases.

EXHIBIT 5

District Size at Selected Percentiles

Percentile		Number of Students	
100th	(Largest)	202,149	Houston ISD
95th		16,656	
90th		6,239	
75th		2,390	
50th	(Median)	841	
25th		355	
10th		155	
5th		103	
0	(Smallest)	3	Allamoore ISD

EXHIBIT 6



The average change in enrollment from 1994 to 1995 was 1.9 percent. Although the category of "other," containing Asian/Pacific Islanders and Native American students, continues to exhibit the greatest percentage increase, it is the Hispanic population that is driving statewide growth. Texas' total enrollment increased by 68,357 students from 1994 to 1995. Hispanic students accounted for 63 percent of this increase.

Seventy percent of the districts reported an enrollment increase in 1994–95 compared with 69 percent in 1993–94. As in 1994, districts in suburban areas around major urban and other central cities experienced higher rates of increase, at least 2.5 percent for both, while major urban and non-metropolitan, stable districts averaged smaller increases, under 1.0 percent for each.

Statewide, growth in the minority student population continues to exceed non-minority growth. Minority students now comprise 52.9 percent of the population, compared with 52.3 percent in 1993–94. Growth in the minority student population was 3.1 percent, with the greatest increase—4.1 percent—occurring in the Asian/Pacific Islander and Native American populations. These populations, categorized in this document as "other," account for 2.5 percent of all students. The number of African American students grew by 2.2 percent, representing a net increase of 11,275 students. African Americans comprise 14.3 percent of the total public school population as they did in 1994, 1993 and 1992.

The Hispanic rate of growth is 3.4 percent, slightly less than it was in 1994 (3.7 percent). Although this rate of growth is not the highest among the ethnic groups, it is the Hispanic population that continues to drive statewide growth. Of the 68,357 student increase in Texas' total enrollment, 63 percent, or 43,023, were Hispanic. This population now accounts for 36.1 percent of the total number of students.

In contrast, the white population grew by only 0.6 percent, or by 10,395 students. This rate of increase is the smallest among the ethnic groups. In 1994, white students increased at a rate of 0.5 percent. See *Exhibit 6*. The overall percent of white students in the total student population has been declining over the last several years. It has dropped from 49.0 percent in 1992, to 48.4 percent in 1993, to 47.7 percent in 1994 and to 47.1 percent this year.

GROWTH BY GRADE

All grades reported some growth for the 1994–95 school year. The highest rates of growth by grade occurred in pre-kindergarten and in grades 9 and 10. Pre-kindergarten alone grew by 7,303 children, or by 7.1 percent over 1994. In the upper grades, enrollment in grades 9 and 10 increased by approximately 24,000 students, a gain of 4.4 percent over 1993–94. More students were added to the 9th grade than the 10th; 14,721 and 9,361, respectively.

Slower rates of growth are found in grades 1, 2, 3, 5 and 11 (less than 1% for each). Elementary growth in grades 1 through 5 was the lowest of all grade spans, at 0.9 percent. High school enrollments were up 3.2 percent. 1994–95 is the fourth consecutive year the total number of 9th through 12th graders increased. The 14,721 student increase in grade 9 accounts for the majority of this growth, while the 4,739 student increase in grade 12 represents the smallest growth of the high school grade span.

Other than pre-kindergarten and kindergarten, grades 1 and 9 have the largest percentage of students new to Texas public schools, 12.6 percent and 10.6 percent respectively. These grades are the traditional entry points for students previously enrolled in private schools.

On average, the pre-kindergarten and kindergarten grades have higher percentages of minority students, 61.5 percent, than the state (52.9 percent). Statutory requirements for pre-kindergarten education stipulate that limited English proficient (LEP) and/or economically disadvantaged pupils are to be identified and served. These characteristics are highly correlated with ethnicity in Texas. In grades 1 through 5, the ethnic distribution is very similar to the state, while the secondary grades (grades 6–12) have slightly more white students, 49.1 percent compared with 47.1 percent statewide.

DROPOUTS

During the 1993–94 school year, 40,211 students in grades 7–12 dropped out of Texas public schools. This is a decline of over 3,000 students from the previous year. The annual dropout rate of 2.6 percent for 1993–94 is two-tenths (0.2) of a percentage point lower than the dropout rate reported in 1992–93.

All ethnic groups have experienced declines in the number of dropouts reported; however, the Hispanic and African American ethnic groups continue to be disproportionately represented among dropouts. As shown in *Exhibit 7*, almost 70 percent of all dropouts are either Hispanic or African American, even though these two populations account for less than half of the total 7th through 12th grade student population.

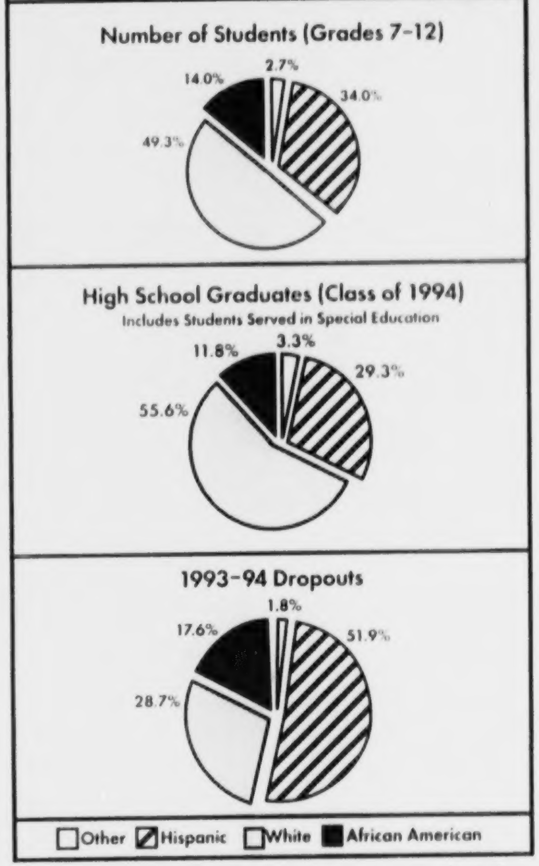
Dropout rates for both Hispanic and African American students remain higher than the state average of 2.6 percent. For 1993–94, the Hispanic dropout rate was 3.9 percent; for African American students it was 3.2 percent. Hispanic and African American students have consistently exhibited the greatest dropout rates among all the ethnic groups. The dropout rate for Asian/Pacific Islander and Native American students in 1993–94 was 1.7 percent, and for white students, 1.5 percent.

However, the gap between the white and non-white dropout rates has diminished over time. In 1987–88 the difference between dropout rates for minority and white students was 3.4 percentage points. By 1993–94, this difference had closed to 2.1 percentage points. Because school and district accountability ratings include the evaluation of dropout rates for all student groups, disparities are expected to continue to decline.

The *number* of dropouts is greatest in the 9th grade, but for the first time since the dropout collection began, the dropout *rate* is greatest in the 12th grade. The 12th grade dropout rate was

EXHIBIT 7

Student Populations by Ethnic Group



Although minority students account for slightly more than half the student population in grades 7–12, they are under-represented among the graduates and over-represented among the dropouts.

EXHIBIT 8

1993–94 Dropouts by Grade Level for Selected Student Characteristics

Grade Level	Total Dropouts	Male	Female	Special Education	Economically Disadvantaged	Not on Grade
7th	1,488	736	752	178	689	782
8th	2,686	1,361	1,325	354	1,252	1,675
9th	12,575	6,964	5,611	1,684	4,433	10,239
10th	8,295	4,505	3,790	1,190	2,763	6,758
11th	7,482	4,096	3,386	950	2,111	5,536
12th	7,685	3,819	3,866	573	2,289	4,788
Total	40,211	21,481	18,730	4,928	13,537	29,778

The typical dropout in Texas is Hispanic, overage for grade by at least one year, in the 9th or 10th grade at the time of school departure, and is probably male. Seventy-four percent of the students who dropped out were overage for their grade, indicating they were retained one or more times over their school careers.

4.0 percent, closely followed by a rate of 3.8 percent for 9th graders. Although students in grade 9 have consistently represented the highest percentage of total dropouts, students in grade 12 have steadily increased as a percentage of total dropouts. In 1987–88, students in grade 12 represented almost 12 percent of all dropouts, while in 1993–94 they represented 19.1 percent.

Approximately 34 percent of all dropouts are identified as economically disadvantaged, and a staggering 74 percent are overage for grade.

Consistent with data reported over the last six years, more males than females dropped out during 1993–94 (53 percent versus 47 percent). See *Exhibit 8*. Male students dropped out at the highest rate in grade 9, while the greatest rate of female dropouts was found in grade 12.

Urban districts and districts with high percentages of minority students have the highest dropout rates. *Exhibit 9*, on the next page, depicts the relationship between community type and dropout rates. Both minority students and economically disadvantaged students are found in greater numbers in urban areas, which may partially explain these differences in rates.

As a group, districts with the greatest student enrollment have consistently shown greater dropout rates than smaller districts. This is likely due to their proximity to urban areas. However, the relationship between dropout rates and campus size does not show the same pattern. Among campuses, the dropout rate for the smallest schools (those with fewer than 200 students) is the greatest. Analysis reveals that only half of these small schools with dropouts are in rural areas. The remainder are small campuses in urban areas with an average dropout rate 3.5 times greater than the rate for the small, rural schools. Such small campuses in urban settings are likely sites serving students at greater risk of dropping out.

By applying the statewide annual dropout rate of 2.6 percent to each grade total in grades 7 through 12, the estimated longitudinal dropout rate is calculated as 14.4 percent. This implies that for every 1,000 students enrolled in the 7th grade in 1993–94, only 856 would be enrolled in the 12th grade five years later.

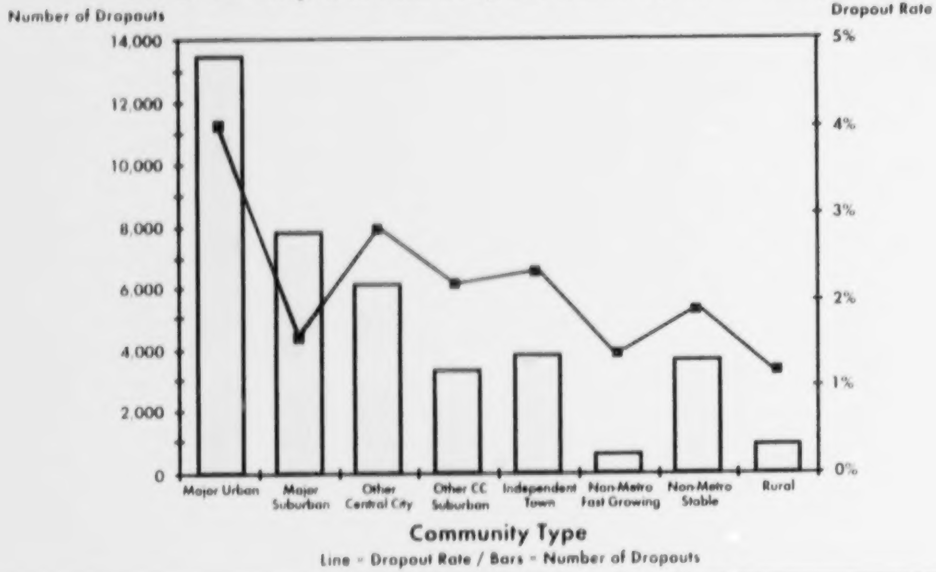
GRADUATES

During the 1993–94 school year 163,191 seniors graduated from Texas public schools, an increase of 1.1 percent over the number graduated in 1992–93. Of the total graduates, 12,798 were identified as special education students. Statewide, white students accounted for 55.6 percent of all graduates, Hispanic students, 29.3 percent, African American students, 11.8 percent, and other students, 3.3 percent. See *Exhibit 7*, on page 7, for a breakdown of the ethnicities of the total 7th through 12th grade student population compared with graduates and dropouts.

From a longitudinal perspective, the total number of graduates in 1993–94 (including special education graduates) is 67.1 percent of all 7th graders enrolled in 1988–89. This is an increase from the previous year when 66.0 percent of 1987–88 enrolled 7th graders graduated. The majority of the nearly 80,000 students lost between the 7th and 12th grades are dropouts; a small percentage are students who did not pass the exit-level state assessment. It is probable that some of these students enroll in General Educational Development (GED) programs and later earn their certificate of high school equivalency. Recent research indicates almost 6 percent of the dropouts reported in 1993–94 had obtained a certificate of high school equivalency by the spring of 1995. GED completion notwithstanding, the high percentages of non-graduates raise major concerns among educational policymakers.

EXHIBIT 9

1993–94 Dropouts and Dropout Rates by Community Type



The number of public school dropouts reported in 1993–94 is 3,191 students less than it was the prior year. Furthermore, the state dropout rate has declined from 2.8 to 2.6 percent. More dropouts (33 percent) are reported from major urban districts than from any other category type. Major urban districts experienced a slight increase in dropout rate compared with the prior year, 4.1 percent versus 4.0 percent.

STUDENT PERFORMANCE

TEXAS ASSESSMENT OF ACADEMIC SKILLS

The Texas Assessment of Academic Skills (TAAS) program, which has been in place since 1990–91, emphasizes the assessment of academic skills and focuses on students' higher order thinking and problem-solving skills. The TAAS reading and mathematics assessments are administered at grades 3, 4, 5, 6, 7, 8, and 10 (exit-level). The TAAS writing assessment is administered to students in grades 4, 8, and 10. The TAAS program also includes a science and social studies component, given in grade 8. An end-of-course assessment is administered to Biology I students in grades 8 through 12.

TAAS results reported here reflect those used in the 1995 statewide accountability system. These are results for all students not served in special education. In addition, an adjustment for mobility is made by including only those examinees who were enrolled in the district at the end of October of the school year being reported. Generally, results reported are the percent of students passing tests in the subject areas of reading, writing and mathematics, summed across grades 3 through 8 and 10. Where the reported outcomes are the percent of students passing all tests taken, the results include reading, writing and mathematics at grades 4, 8, and 10 and reading and mathematics at grades 3, 5, 6, and 7.

These TAAS results were reported in the 1995 data tables for accountability, the 1994–95 Academic Excellence Indicator System (AEIS), the 1994–95 School Report Card, and the *Pocket Edition, 1994–95 Texas Public School Statistics*. In all cases, the results for students receiving special education services have been excluded and the adjustment for mobility has been applied. Readers wishing to review TAAS results for all non-special education and special education students tested should request the TEA publication *Texas Assessment of Academic Skills: Student Performance Results, 1994–1995*.

During the spring semester of 1995, almost 1.5 million students were tested in grades 3 through 8 and 10. Reading and mathematics tests were given at all these grades. The writing test, administered at grades 4, 8, and 10, was taken by

EXHIBIT 10

Percent of Students Passing TAAS by Grade and Subject: Spring 1995

Grade	Number of Students Tested	Pct. Passing All Tests Taken	Pct. Passing Reading	Pct. Passing Writing	Pct. Passing Math
3rd	200,973	67.4%	79.5%	n/a	73.3%
4th	211,008	64.1%	80.1%	85.0%	71.1%
5th	208,412	66.8%	79.3%	n/a	72.6%
6th	216,947	61.3%	78.9%	n/a	64.6%
7th	219,352	59.4%	78.7%	n/a	62.3%
8th	217,588	51.0%	75.5%	75.3%	57.3%
10th	186,785	55.1%	76.4%	86.3%	60.2%
All Grades	1,461,065	60.7%	78.4%	82.0%	65.9%

The TAAS is a state-administered criterion-referenced test that draws its objectives from the essential elements (the state-mandated curriculum) established by the State Board of Education. In the spring of 1995, 1,461,065 students in grades 3 through 8 and 10 (exit-level) were tested—a 2.1 percent increase over the number of students tested the previous spring (3 through 8 and 10). Test results reported in this publication are for non-special education students enrolled in the district as of late October 1994. These results were used in the 1995 statewide accountability system.

close to 600,000 students statewide. Science and social studies tests were administered to over 200,000 students in grade 8. End-of-course examinations in Biology I were administered to over 200,000 students in grades 8 through 12.

While various measures can be used to interpret test results, this document reports the percent passing, computed as the number of students passing a test divided by the number of students taking a test. The percent passing all tests taken is the number of students passing all the tests they attempted divided by the number of students who were tested. In this report, the "all tests taken" measure includes up to three tests: reading, writing and mathematics. Note that for grade 8, Science and Social Studies results are excluded from the "all tests taken" metric. The percent passing can be shown by individual grade, or for all grades tested. "All grades tested" is computed using counts of passers and takers summed across the grades.

Exhibit 10, on the previous page, shows spring 1995 results by grade and subject. Among the grades tested, the percent passing all tests taken is lowest in grade 8 (51 percent) and highest in grade 3 (67.4 percent). Similar results were seen for grade 8 last year. Statewide, approximately 61 percent of the students in all grades tested passed all the tests they took. This is an improvement of five percentage points over the spring of 1994 when 56 percent of the students passed all tests taken.

By subject area, 1995 results compared with the prior year show that the greatest increases occurred in mathematics. Performance in mathematics improved from 61 percent to 66 percent passing. Writing increased from 79 to 82 percent passing, and reading increased from 77 percent to 78 percent.

EXHIBIT 11

Comparison of 1994 and 1995 Percent of Students Passing TAAS Summed Across Grades 3–8 and 10

		All Students	African American	Hispanic	White	Other	Economically Disadvantaged
Reading	Spr. 95	78.4%	63.0%	67.9%	88.4%	86.9%	66.1%
	Spr. 94	76.5%	60.2%	64.9%	87.2%	85.6%	62.9%
Writing	Spr. 95	82.0%	70.5%	73.4%	89.7%	88.5%	71.5%
	Spr. 94	79.0%	65.8%	69.6%	87.6%	84.8%	67.7%
Math	Spr. 95	65.9%	43.8%	52.3%	79.2%	83.6%	51.4%
	Spr. 94	60.5%	38.1%	47.1%	73.3%	79.9%	45.0%
All Tests	Spr. 95	60.7%	38.3%	46.1%	74.8%	77.5%	44.8%
	Spr. 94	55.6%	33.3%	41.1%	69.4%	73.7%	39.0%

All student groups demonstrated improvement in all subjects in 1995, with the most dramatic performance increase occurring in mathematics. To ensure comparability, the 1994 results, like the 1995 results, represent the performance of non-special education students, enrolled in the district as of late October of the school year.

Results by student group and subject indicate that the greatest improvement in performance was in mathematics, for all student groups. Generally, the percent passing mathematics increased by 5 percentage points or more, with economically disadvantaged students showing the greatest increase at 6.4 percentage points. Writing increases ranged from 2.1 percentage points for white students to 4.7 percentage points for African American students, and reading increases varied from 1.2 percentage points for white students to 3.2 percentage points for economically disadvantaged students. See *Exhibit 11*.

Despite the strong performance gains achieved by minority students, *Exhibit 11* shows that significant disparities in performance continue to exist among the major ethnic groups in Texas. Differences in performance between African American and white students range from 19 percentage points in writing to 35 percentage points in mathematics. Similar, but smaller, disparities exist between Hispanic students and white students, where the gap ranges from 16 in writing to 27 in mathematics. Thirty-eight percent of African American students and 46 percent of Hispanic students passed all tests taken compared with 75 percent, and 77 percent of white and "other" (Asian/Pacific Islander and Native American) students, respectively. Economically disadvantaged students had passing rates which were 16 percentage points lower than statewide rates and 27 percentage points lower than passing rates of non-economically disadvantaged students. The statewide accountability system includes an analysis of student group performance in order to focus attention on the need to increase performance and reduce these disparities.

Districts must offer remediation to students failing to pass a test in a subject area. Statewide, in grades 3 through 8 and 10, over 570,000 students (39 percent) required remediation after the 1995 TAAS administrations. This figure is lower than the over 600,000 students (44 percent) who required remediation due to failing the TAAS tests at grades 3 through 8 and 10 in 1994. The state compensatory allotment supports this remediation; however, it is allocated based on counts of economically disadvantaged students, not the number of students requiring services.

Students failing to pass the exit-level test are not eligible to receive a Texas high school diploma.

EXHIBIT 12

1995 Accountability Ratings

Accountability Rating	Number of Districts	Percent of Total	Number of Students	Number of Schools	Percent of Total	Number of Students
Exemplary	14	1.3	17,327	255	4.1	144,492
Recognized	137	13.1	100,190	1,004	16.1	526,729
Accredited/Acceptable	860	82.3	3,200,441	4,345	69.9	2,673,293
Accredited, Warned/ Low-Performing	34	3.3	352,238	268	4.3	268,399
Pending	n/a	n/a	–	254	4.1	20,027
Not Rated	n/a	n/a	–	94	1.5	27,504
Total	1,045	100.0	3,670,196	6,220	100.0	3,660,444

*Schools classified as **Pending** are those that applied and were approved as alternative education campuses. These schools will be evaluated under the Alternative Accountability System established by the Department of Accountability. **Not rated** schools are the pre-kindergarten, kindergarten, or early education centers which are not rated unless the district chose to pair that school with another school in the district that serves higher grades.*

Among sophomores taking the March 1995 TAAS exit test, 83,866 (45 percent) failed one or more of the subject areas. These students will have seven more opportunities to master the exit-level TAAS test before the end of their senior year as the class of 1997. Results for the class of 1995, which began taking the exit test in the spring of 1993 and had eight re-test opportunities, including the summer following their senior year, indicate that 5,762 students statewide did not pass one or more sections of the exit-level TAAS test. This represents an estimated cumulative passing rate of 91 percent for the class of 1995. In 1995, Texas had no certificates of completion for students who fail to pass the exit-level TAAS. However, new legislation now gives local school districts the option to offer such certificates in 1996 and beyond.

Group information in the *Detailed Statistics* section shows that the percent of students passing all tests taken on the statewide assessment instrument tends to be higher in major suburban districts and lower in large, urban districts, a pattern which has held for the past seven years.

District-level passing rates for science and social studies are not provided in this publication. Statewide results show that 77 percent of 8th grade students passed the science assessment and 66 percent passed social studies. Performance patterns among student groups on both were similar to those for reading, writing, and mathematics. For details on the results of these assessments, as well as for the end-of-course examination in Biology I, see *Texas Assessment of Academic Skills: Student Performance Results, 1994–1995*.

ACCOUNTABILITY RATING SYSTEM FOR TEXAS PUBLIC SCHOOLS

Beginning in 1993, Texas public schools and school districts have been rated and accredited, respectively, based on indicators of performance. In 1995, the indicators included performance on the reading, writing, and mathematics portions of the TAAS; dropout rates; and the attendance rate.

In 1995, overall performance, as well as the performance of student groups, (African American, Hispanic, White, and Economically Disadvantaged) was examined to place districts in *Exemplary, Recognized, Accredited*, and *Accredited, Warned* categories. Schools were categorized as *Exemplary, Recognized, Acceptable, Low-Performing, Pending*, or *Not Rated*. Results of college admissions participation and performance are analyzed for additional acknowledgement but do not affect the overall rating for a school or district.

Specific details regarding how accountability ratings were calculated are contained in the *Accountability Manual: The 1995 Accountability Rating System for Texas Public Schools and School Districts*. The distributions of district and school ratings for 1995 are shown in *Exhibit 12*, on the previous page. Awards and sanctions are tied to these rating categories.

Two hundred fifty-five schools were rated *Exemplary*. This is almost four times the number rated *Exemplary* in 1994. The number of *Low-Performing* schools increased as well, from 53 in 1994 to 268 in 1995, primarily because more rigorous accountability standards were put in place. Most *Low-Performing* schools received this rating either because of poor performance on the TAAS mathematics test, or because of a high dropout rate.

COLLEGE ADMISSIONS TESTS

In Texas, almost 65 percent of 1993–94 public high school graduates participated in college admissions testing. Of the class of 1994, over 97,000 students took either the Scholastic Aptitude Test (SAT) of the College Board's Admissions Testing Program, or the ACT component of the American College Testing Program, or both tests.

Exhibit 13 shows the average SAT and ACT scores for all graduates for Texas and the nation. In addition, the averages for only the public school graduates for Texas are shown. Average college admissions scores for all Texas graduates for the class of 1994 were below the national averages. Texas' SAT scores were 16 points lower than the national average (886 versus 902). The ACT com-

EXHIBIT 13

SAT and ACT Scores
1993–94 Seniors for Texas and the Nation

	Texas Public School Graduates	All Texas Graduates	All U.S. Graduates
SAT			
Verbal	411	412	423
Mathematics	474	474	479
Total	885	886	902
ACT			
English	19.6	19.7	20.3
Mathematics	19.9	19.9	20.2
Reading	20.3	20.3	21.2
Science Reasoning	20.2	20.2	20.9
Composite	20.1	20.2	20.8

The average SAT score for all Texas graduates is 886, 16 points lower than the national average for 1993–94. The Texas SAT average is one point higher than it was in 1992–93. Average ACT composite scores are one-tenth (0.1) of a point higher than they were in 1992–93 for all graduates for both Texas and the U.S.

posite was 20.2 for all Texas graduates compared to 20.8 for the nation. Scores for public school graduates were slightly lower than those for all Texas graduates—one point lower on the SAT, and 0.1 lower on the ACT.

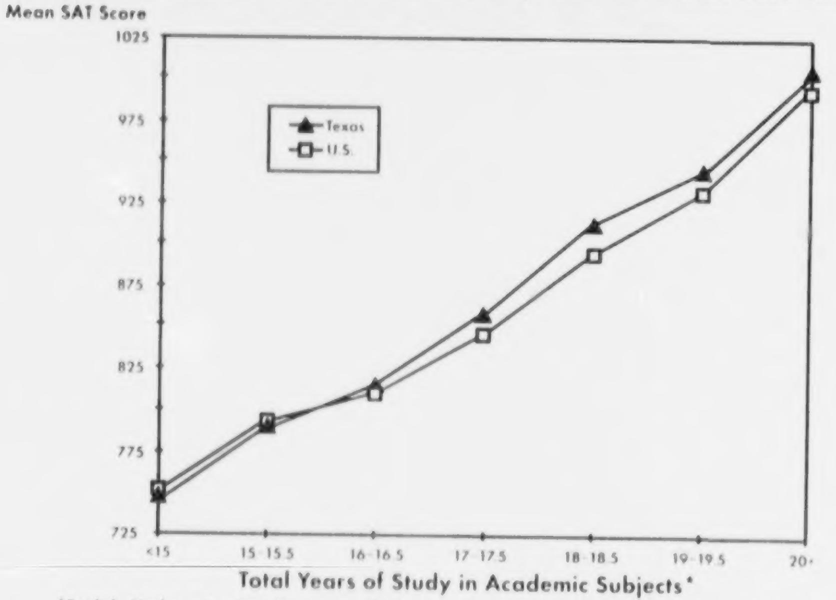
Nationwide, approximately 42 percent of all graduates took the SAT and 36 percent took the ACT. In Texas, 48 percent of all graduates took the SAT, and 32 percent took the ACT. For both Texas and the nation, "all graduates" includes public and non-public school students.

The SAT consists of verbal and mathematics components; the ACT includes tests of reading and science reasoning in addition to English and mathematics. Scores on the verbal and mathematics sections of the SAT range from 200 to 800 and sum to the SAT total score, which ranges from 400 to 1600. Beginning March 1994, a revised SAT was introduced, the Scholastic Assessment Test, or SAT I: Reasoning Test. This replaces the old SAT (Scholastic Aptitude Test). Only the March 1994 administration of the new SAT I is included with the class of 1994 scores; thus the traditional SAT test title is retained in this publication.

Each subject area component of the ACT has a score ranging from 1 to 36 —the composite is the average of these four scores. Since October 1989, a revised ACT, the Enhanced ACT Assessment, has been administered.

EXHIBIT 14

SAT Scores for 1993–94 Seniors by Years of Academic Study



*English, Mathematics, Social Science and History, Natural Sciences, Foreign Languages, and Arts and Music

For both Texas and the nation, test scores rise with academic preparedness. Given comparative levels of preparation, Texas' scores frequently exceed the national average. Since the mean SAT scores for Texas are lower than those of the nation, this implies that, on average, students in Texas take fewer years of academic units than do SAT examinees nationwide. For example, 41 percent of all U.S. students take 20 or more years of academic units versus only 25 percent of Texas students with this level of academic course work.

Despite the 47 percent increase in the number of students taking the ACT assessment in Texas public and non-public schools since 1986, the average score on this test has risen eight-tenths (0.8) of a point over the same period of time. Although Texas ACT scores for all graduates remain below the national average, both Texas and national composite scores improved by one-tenth (0.1) of a point from the prior year.

Students who take the SAT report information on their academic preparedness, parental education, and family income. Students' SAT scores tend to rise with increasing numbers of academic courses completed, higher levels of parental education, and higher levels of family income. *Exhibit 14* on page 14, shows the relationship between years of study in academic subjects and SAT total scores.

Similar relationships exist with ACT test score results. The average ACT composite score for Texas students who took a college preparatory high school program, defined as four years of English and three years each of mathematics, social studies, and natural sciences, is 21.3, which is 3.4 points higher than the average score for students who did not complete such a program.

Lower levels of academic preparedness offer one possible explanation for the lower SAT and ACT test scores of African American and Hispanic students relative to scores of white students. Typically, Texas SAT and ACT results show that African American and Hispanic students complete relatively fewer academic courses compared to white students.

An additional data element reported from the college admissions testing program is the percentage of 1993–94 graduates scoring at or above the accountability criterion score (1000 on the SAT; 24 on the ACT). This standard of excellence was met or exceeded by 17.4 percent of the class of 1994. This is a slight improvement over the 17.2 percent who met or exceeded this standard in the class of 1993.

DISTRICT STAFF

STAFF COUNTS

TEACHERS

Teachers represent the largest single category of staff, accounting for 84 percent of the professional staff and 52 percent of the total staff. See *Exhibit 15*, on page 16. Teacher FTE counts grew by 3.4 percent over the previous year, whereas student enrollment increases remained constant at 1.9 percent. Student growth rates vary across districts and grades, requiring districts to hire additional teachers for less than full classrooms. This occurs at a rate of approximately one new teacher FTE for every 9 new students.

Rates of teacher increases vary with the size of the district. Districts in all size categories hired teachers at a rate greater than the respective average enrollment growth rates, thereby reducing their average student/teacher ratios. The 476 districts with enrollments greater than 1,000 hired new teachers at a rate of between one and two percent higher than the respective enrollment growth rates. Districts with enrollment between 500 and 1,000 hired teachers at the lowest rate, one for every 10.1 students. The smallest teacher and student growth increases occurred in the eight largest districts.

SUPPORT AND ADMINISTRATIVE STAFF

The combined categories of administrators and professional support staff increased by 3.5 percent between 1993–94 and 1994–95, very close to the 3.4 percent rate of growth demonstrated by teachers. Professional support staff increased by 4.1 percent. Campus administrative staff grew by 2.7 percent and central administrative staff increased by the smallest rate, 1.8 percent, below the 1.9 percent rate of student growth. In the 221 districts with over 3,000 students, professional support staff personnel increased at a rate greater than twice the corresponding growth in enrollment within those districts. The districts with under 500 students experienced a negative growth rate in professional support staff personnel, and administrative staff growth rates were less than the respective student enrollment growth rate. Central administrative growth rates exceeded enrollment growth rates in only three of the nine district size categories.

NON-PROFESSIONAL STAFF

The number of educational aides grew by 6.4 percent this year, up from last year's 5.7 percent in-

EXHIBIT 15

District Staff by Category

Category	FTEs	Percent of Total Staff	Average Salary Base Pay Only	Average Salary (Including Supplements)
Teachers	234,214	52.1%	$29,452	$31,223
Campus Administrators	11,126	2.5%	$47,690	$47,999
Central Administrators	4,120	0.9%	$56,784	$56,936
Professional Support	29,401	6.5%	$36,913	$37,177
Total Professionals	278,860	62.0%	$31,370	$32,905
Educational Aides	41,317	9.2%	$11,296	$11,352
Auxiliary Staff	129,244	28.8%	$14,272	$14,272
Total Staff	449,421	100.0%	$24,608	$25,566

*See **Exhibit D** in the **Endnotes** for a list of positions assigned to each of these categories. Supplements are amounts paid in addition to an employee's base salary and include payments for coaching, club sponsorships, and band or orchestra assignments. Supplements also include amounts paid to teachers from the Teacher Compensation Allotment, a source of funds for teachers previously on the career ladder. Totals may not sum due to rounding.*

crease. In 1994–95, aides employed at junior high schools increased by almost 20 percent over the previous year, while aides employed by K–12 schools continued to decline, this year dropping by 0.1 percent. Analysis continues to demonstrate that a portion of the staff employed as educational aides will advance to teaching positions. During 1994–95, approximately 2,076 teachers (less than one percent of the total teaching staff) had been employed as aides sometime between 1991 and 1994.

Auxiliary staff, the second largest category of staff at 28.8 percent of all staff, increased by 2.9 percent. Auxiliary staff include secretaries, bus drivers, maintenance workers, and cafeteria workers.

The ethnic composition of district staff changed only slightly from the previous school year. Minority staff increased by one-half percent of all staff employed in Texas public schools. This is disaggregated to 23.2 percent Hispanic, 11 percent African American, and 0.7 percent Asian/Pacific Islander and Native American. Among teachers, approximately 23.4 percent are minorities, representing no significant change from the previous academic year. Although slight increases were observed in minority percents, ethnic minority recruitment into education careers needs continued emphasis.

Of the candidates seeking initial certification in Texas, 26.7 percent were African American, Hispanic, Asian/Pacific Islander or Native American in 1994–95. Only 14.6 percent of the teachers entering Texas from other states in 1993–94 belonged to one of these ethnic groups. In contrast, the 1993–94 Alternative Certification Program (ACP) interns were 46.5 percent minority and the former educational aides now in teaching positions were 26.3 percent minority. These routes to certification continue to be the most successful at ethnic minority recruitment.

TEACHER EXPERIENCE

Teachers employed in Texas in 1994–95 averaged 11.5 years of total experience. Nearly 18 percent of all teachers have more than 20 years experience and 45 percent have between 1 and 10 years of experience. In 1994–95, new teachers accounted for 6.7 percent of the total. Teachers at high schools continue to be more experienced, 13.9 years on average, as compared with elementary school teachers with an average of 11.5 years of experience. However, unlike previous years, the lowest average years of teacher experience exists in junior high schools; 11.4 years. Districts with greater enrollment growth have less experienced teachers, indicating new, rather than experienced, teachers are more often hired to meet the increase in demand.

TEACHER CREDENTIALS

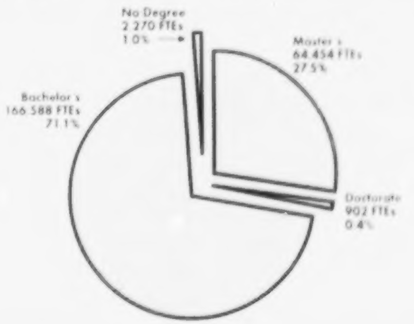
To teach in public schools in Texas, individuals must earn appropriate certification by satisfying a combination of education, experience, and test requirements that vary depending upon the certification route pursued.

EDUCATION

As shown in *Exhibit 16*, the majority of teachers in Texas (71.1 percent) hold a bachelor's degree. An additional 27.9 percent have earned master's or doctoral degrees. The less than one percent of teachers reported as having no degree are composed of certain career and technology education teachers who are certified by meeting other experience and education requirements, full-time substitutes, aides reported as teachers of record, and alternative certification interns on probationary certificates working on full certification. Larger districts continue to enjoy a larger proportion of teachers with advanced degrees. Thirty-four percent of the teachers in the eight largest districts have master's degrees or higher, compared with 19.5 percent of teachers in the smallest districts. The percentage of Texas teachers with advanced degrees continues its gradual decline; the decline for 1994–95 was nearly one percent. Rural districts continue to lose proportionately more advanced degreed teachers than urban districts over the same time period.

EXHIBIT 16

Highest Degree Held for Teachers



The percent of Texas teachers with advanced degrees continues to decrease. In 1994–95, 27.9 percent of teachers have Master's or Doctorate degrees, a 0.9 percent decline from the prior year.

CERTIFICATION

To become certified in Texas, an educator must pass appropriate Examination for the Certification of Educators in Texas (ExCET) tests. The ExCET program in 1994–95 consisted of 52 content specialization tests (e.g., Elementary Comprehensive, Biology, Generic Special Education), two professional development (i.e., pedagogy) tests, and seven examinations for a professional certificate (e.g., Superintendent, Mid-management Administrator, Counselor). In general, ExCET examinees take a combination of tests—the appropriate professional development test and one or more content specialization tests in the fields in which they are seeking certification. Prior to taking the ExCET, students seeking to enter an approved teacher preparation program, including the ACP, in a Texas public college or university must pass the Texas Academic Skills Program (TASP) Test, which assesses basic skills in reading, writing, and mathematics.

Although the largest group of ExCET examinees is recent university graduates, out-of-state teachers, alternative certification candidates, and already-certified individuals seeking certification in additional areas also take the ExCET.

Overall, 38,685 examinees took 76,699 ExCET tests, between September 1994 and August 1995. Of the 20,279 people who took an ExCET test for initial certification, 65 percent were beginning teachers from a teacher education program in a university, 14 percent from an alternative certification program, and 21 percent from another state. The success rate for all ExCET tests attempted for the first time (63,106 tests taken) was 85.3 percent. Already-certified educators have the option of obtaining additional certification by passing other ExCET tests, either with or without additional university-based preparation; in some cases, an internship is also required to earn this additional certification. Examinees attempting ExCET tests without additional college study have the lowest passing rates (77 percent). See *Exhibit 17*, on page 18, for the 1994–95 ExCET passing rates by certification route.

Passing rates on the ExCET vary by both training institution and program within the institution. Information on ExCET testing is available from the agency's division of Educator Assessment and Appraisal; information concerning performance of education preparation programs is available from the division of Educator Preparation and Certification.

Alternative certification is a process offered in Texas through which degreed graduates in disciplines other than education can become certified teachers. These candidates must pass a basic skills examination to enter the program, successfully complete a one-year internship, and pass the appropriate ExCET examinations to obtain certification.

Teachers certified in Texas before 1986 must revalidate their certification for employment in Texas public schools by passing either the Texas Examination of Current Administrators and Teachers (TECAT) or any ExCET examination. Approximately 1,600 individuals took the TECAT, a test of minimum skills in reading and writing, during the last year.

EXHIBIT 17

1994–95 ExCET Passing Rates by Certification Route

	Number Tested	Percentage of Tests Passed
Seeking Initial Certification in Texas		
University Program	13,114	87.1%
Alternative Certification	2,879	85.9%
Certified-Out-Of-State	4,286	90.1%
TOTAL	20,279	87.5%
Seeking Additional* or Professional Certification		
Certification-By-Examination	9,147	77.0%
University Program	874	88.8%
Professional Certification	4,776	90.8%

*Some examinees seeking additional certification may appear in more than one route.

A number of Texas teachers sought additional certification under a law which allows those who pass the ExCET to forego formal preparation (for some, an internship is also required). The areas in which most examinees seek certification-by-examination are English as a second language, generic special education, elementary education, and early childhood education. Examples of ExCET tests for professional certification are Superintendent, Mid-management Administrator, and Counselor. Data above represent performance from the first time the examinee took the test.

PERMITS

Teachers, counselors, principals, and certain other administrators who have not yet earned the appropriate certification may be granted one of five types of permits in order to perform their assigned duties. A permit must be acquired for a non-certified person to teach, for a teacher to undertake counseling or administrative duties, or for a teacher to teach more than one class out-of-field.

The TEA must authorize the nonrenewable permit, the emergency teaching permit for certified personnel, the emergency teaching permit for uncertified personnel, and the temporary exemption permit. A district superintendent may authorize the temporary classroom assignment permit for a teacher to teach more than one class out-of-field at the secondary level.

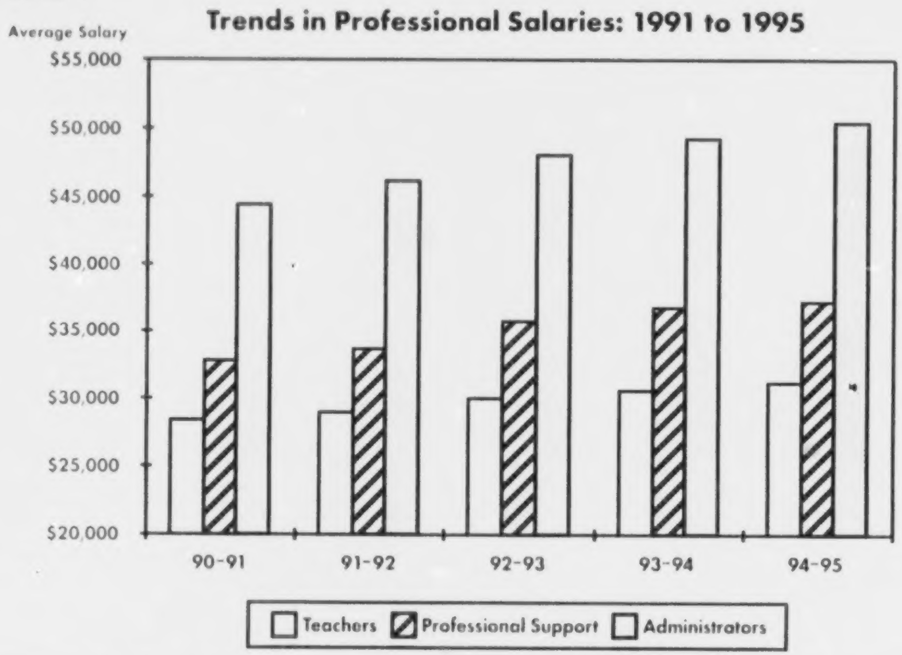
Statewide, 2.4 percent of teachers hold an active permit of some type. The percentage of teachers holding permits varies by subject area and student population served. Excluding the area of regular education, the three areas with the greatest proportion of teachers holding emergency teaching permits are bilingual education, special education, and English as a second language. For the past five years, the U.S. Department of Education has designated bilingual and special education as teacher shortage areas in Texas. Teachers in these areas are eligible for loan deferments or a reduction in the length of their teaching obligation under federal loan and scholarship programs.

PROFESSIONAL SALARIES

In 1994–95, professional base salaries grew by 2 percent, to $31,370, from the 1993–94 school year. Total salaries, including reported supplements, climbed to $32,905, a 2.1 percent increase. Supplements are amounts paid in addition to the base salary contracted for an employee's regular duties. Supplements are paid for such things as coaching, club sponsorships, and band or orchestra assignments. Supplements also include money available from the Teacher Compensation Allotment, a source of funds which helps sustain supplements paid to teachers previously on the career ladder.

Central and campus administrative staff salaries exhibited a 2.8 percent and 2.2 percent increase, respectively, while professional support staff salaries exhibited the smallest increase, 1 percent. On average, central administrators earn $56,936, campus administrators $47,999, and professional support staff $37,177. Teacher salaries, including supplements, increased by 2.3 percent, to $31,223. *Exhibit 18* depicts trends in professional salaries since 1990–91.

EXHIBIT 18



Between 1990–91 and 1994–95 the average teacher salary in Texas rose 10.2 percent, to $31,223. Administrative salaries have risen 13.7 percent and professional support, 13.5 percent, over the same time period. All salaries in this exhibit include supplement amounts for all years shown.

According to the 1995 *Digest of Education Statistics*, Texas teacher salaries ranked 33rd among the states in 1994–95. The average salary for Texas teachers was 15.2 percent below the national average of $36,933. However, how much teachers earn is closely linked to their years of teaching experience. For example, in Texas, the minimum amount teachers can be paid is controlled by a state-mandated salary schedule which requires that minimum salaries rise as the years of experience of the teacher increase. Because the average experience level of teachers varies from state to state, average salaries are likely to be higher in states with more experienced teachers.

In addition to differences in teacher experience among states, cost-of-living differences explain some of the national variation. According to the American Federation of Teachers, in 1993–94 Texas ranked 34th in teacher salaries. However, when cost-of-living was considered, Texas moved to the 27th rank.

Although Texas salaries are low compared with other states, according to the 1995 *Digest of Education Statistics*, the pupil-teacher ratio remains lower than the national average: 16.0 in Texas compared with 17.4 nationally in 1993–94. The expense of maintaining smaller class sizes limits the ability of districts to compensate teachers with higher salaries. Of the 33 states with salaries higher than those in Texas, 19 also had higher pupil-teacher ratios in 1993–94.

New teachers earn about the same starting pay regardless of campus type, but as the years of experience increase, high school teachers earn more than their middle and elementary school colleagues. This is likely due to increased opportunities for salary supplements related to cocurricular and extra-curricular activities at the higher grades.

Analysis of salary increase by size and type of district indicate the greatest increases occurred in districts with enrollment between 5,000 and 50,000 students. Growth of teacher base salaries in all other districts increased at rates less than the state average, with the smallest rate increase occurring in districts with enrollment between 3,000 and 5,000 students, a 0.2 increase. Since 1989–90, the difference between what the major urban districts pay and what rural districts pay has been steadily increasing. For teacher salaries, urban districts paid 11 percent more in 1989–90, but 18.3 percent more in 1994–95. Cost-of-living differences between urban and rural areas explain some of this variation.

FINANCES

Funding for public education in Texas comes from three major sources: local, state, and federal. Local funding is derived from taxes on district property wealth. State funding is based on legislative appropriations determined through a finance system defined in statute. Federal funds are appropriated by Congress, generally for specific purposes.

STATE FUNDS

State funds for public education in Texas are distributed through a system of formulas known as the Foundation School Program (FSP). In response to the *Edgewood* litigation, the FSP has undergone significant revision. In 1989, Senate Bill 1019 was passed to address the *Edgewood* case. Later that year, the Texas Supreme Court declared the system of financing public schools to be unconstitutional. The legislature again made changes to the system with Senate Bill 1, passed in 1990. However, the post-Senate Bill 1 system was also found to be unconstitutional, and in 1991 the legislature passed Senate Bill 351. This bill differed from previous FSP law by creating an additional funding source for each school district, the county education district (CED). Under this legislation, funds from taxable property were generated by two entities: the local school district and the CED.

In January 1992, the court found Senate Bill 351 to be unconstitutional, primarily because the CED taxes were deemed to be illegal. The court allowed the CED taxes to be collected during 1991–92 and 1992–93; however, the legislature was directed to implement a new finance plan by June 1993.

The result, Senate Bill 7, was passed in May 1993 following a series of other failed attempts to alter school funding mechanisms. These failed attempts included a method of funding known as the "Fair Share Plan" proposed during a November 1992 special session, as well as three proposed constitutional amendments voters rejected in May 1993.

Senate Bill 7 went into effect beginning with the 1993–94 school year at the same time its constitutionality was being challenged. In December 1993, District Judge Scott McCown upheld its constitutionality but his ruling was appealed directly to the Texas Supreme Court. On January 30, 1995, the Texas Supreme Court upheld Judge McCown's ruling, declaring the system under Senate Bill 7 to be constitutional.

EQUALIZING WEALTH

Changes between Senate Bill 7 and Senate Bill 351 were significant. With Senate Bill 7, CEDs were dissolved and a new chapter was added to the *Texas Education Code* which provides a different mechanism for equalizing property wealth. This new chapter establishes an equalized wealth level of $280,000 per weighted pupil and requires districts above this level to reduce their wealth by choosing one of five options. If no option is exercised, the commissioner of education is directed to detach property and/or consolidate districts in order to achieve the equalized wealth level. The five options are:

1) *Voluntary Consolidation,* the boards of trustees of two or more districts agree to consolidate. The resulting consolidated district must have wealth per student less than the equalized wealth cap of $280,000 per pupil. No districts elected this option in 1994–95.
2) *Voluntary Detachment and Annexation of Property,* the boards of trustees of two districts agree to detach property from one district and annex it to the other. The resulting wealth of the district detaching property cannot exceed $280,000 per weighted pupil and the resulting wealth of the district to which the property is annexed cannot exceed $205,500 per weighted student. No districts elected this option in 1994–95.
3) *Purchase of Attendance Credits from the State,* a district purchases attendance credits in order to reduce its wealth per pupil to the equalized wealth level. Each credit corresponds to one student in weighted average daily attendance (ADA) which is added to the district's own weighted ADA total for the purpose of calculating wealth per student. The cost of a credit is the greater of either the district's total tax revenue per weighted ADA or the state average total tax revenue per weighted ADA for the

preceding school year. Money from the payment of credits is deposited for use in financing the FSP. Thirty-seven districts chose this option in 1994–95.

4) *Education of Students in Other Districts*, a district agrees to pay to educate students of another district in order to reduce its wealth per pupil to the equalized wealth level. The students whose education is paid for are counted for purposes of computing the paying district's wealth per weighted student. The cost of educating each additional student is equal to the cost of attendance credits described in option three. Fifty-nine districts chose this option in 1994–95.

5) *Tax Base Consolidation*, the boards of trustees of two or more districts agree to conduct an election to create a consolidated taxing district. This type of tax base consolidation differs from CEDs in that all M&O taxing authority resides in the taxing district. Component districts have no M&O taxing authority. No districts chose this option in 1994–95.

During 1994–95, a total of 96 districts participated in one or the other of the two wealth-reducing options selected among the five described above: either the purchase of attendance credits from the state, or the education of students in other districts. All districts exercised their option in a timely manner, thus avoiding any mandatory detachment or consolidation by the commissioner.

The FSP is a two-tiered system of formulas. Under Senate Bill 7, as in prior legislation, the distribution of state aid to school districts is governed by three basic components: the Available School Fund (ASF); tier 1 state aid; and, the guaranteed yield program (tier 2).

AVAILABLE SCHOOL FUND

Constitutionally created in 1876, the ASF consists primarily of earnings from the Permanent School Fund and taxes dedicated to the fund by the state constitution. Most of the ASF revenue is distributed to local school districts on a per capita basis. In 1994–95, the per capita apportionment for school districts was $367 per ADA.

TIER 1

The first tier of the FSP is a financing system comprised of a series of allotments designed to ensure that each school district can provide instructional programs suitable to meet the basic educational needs of its students. Allotments are calculated using various student counts. These include the student count called average daily attendance (ADA); student head counts based on identified characteristics, such as family income; and full-time equivalent (FTE) student counts, which are counts that have been modified by program or instructional arrangement weights. For the 1994–95 school year, the basic allotment, or the basic amount of money provided from the state, is $2,300 for each student in ADA.

Tier 1 of the FSP computes a cost of providing education services for each district. A fundamental tenet of the financing system is that the state and the school districts will share the cost of this tier. The share for each depends on the property tax base of the school district. Beginning in 1993–94, districts wishing to participate in the FSP were required to levy a property tax of $0.86 per $100 of valuation, an increase of $.04 above the 1992–93 mandatory rate the CEDs were required to levy under Senate Bill 351.

TIER 2

The guaranteed yield program, begun in 1989–90, provides additional funds to enrich the basic tier 1 program. This level of financing, often called tier 2, enables districts below $205,500 in wealth per student to earn additional state aid by setting their tax rate above the $0.86 minimum level needed for the first tier of the FSP.

For each penny of tax effort the district levies above the first tier requirement, within a calculated range that may not exceed $0.64, the state will guarantee a yield of $20.55 per penny, per weighted student. Senate Bill 7 limits the number of pennies for which the state guarantees the $20.55 yield to the tax effort each district demonstrated in the year preceding the biennium. For the 1994–95 biennium, the tax effort demonstrated in 1992–93 was used in determining this limit. The maximum guaranteed yield amount for 1994–95 is $1,315 per weighted student.

There is an inverse relationship between district wealth and state funding in both the basic allotment and guaranteed yield tiers of the FSP. In both tiers, poorer districts receive a larger percentage of their revenue from the state while wealthier districts fund their operations with a greater percentage of local funds.

Exhibit 19 illustrates the relationship between wealth and state aid. It also highlights the fact that the local effort of the wealthiest group of districts generates as much revenue as the combined state, local, and federal amounts of the poorer groups. However, total revenue per pupil does not vary substantially due to wealth for the remaining 90 percent of districts because of the FSP structure.

LOCAL FUNDS

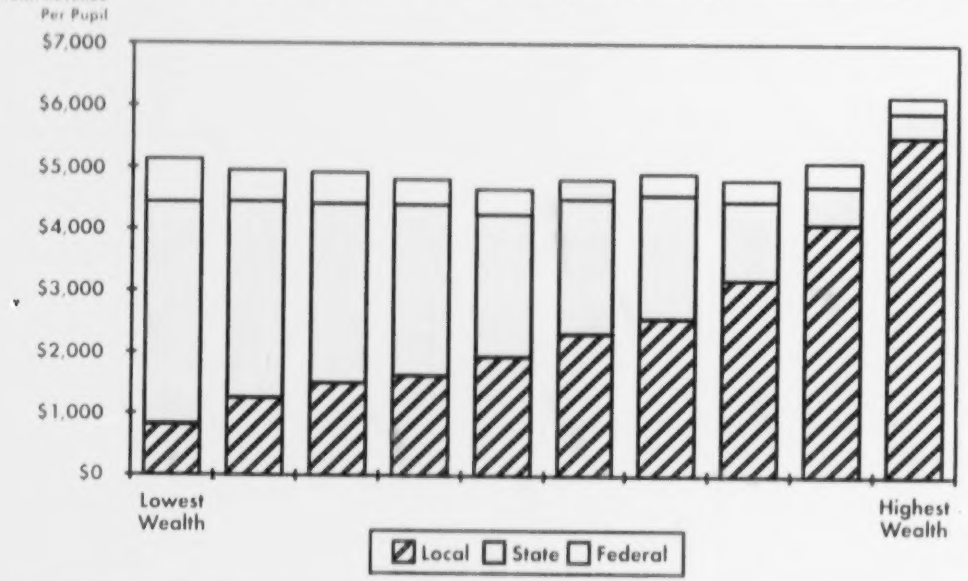
Local funds for public education are raised primarily through the local property tax. Taxes are levied against locally assessed property rolls to generate revenue. All tax rates shown in this publication are effective tax rates, calculated using the market value of property estimates from the Comptroller's Property Tax Division (CPTD). Locally adopted rates, the rates most familiar to taxpayers, are not used for inter-district comparisons because they do not control for variation in local appraisal practices.

Districts may set two tax rates each year, one for maintenance and operations (M&O) and, if necessary, another for servicing debt, called the interest and sinking fund rate (I&S). Locally adopted tax rates were generally subject to a statutory maximum of $1.50 per $100 assessed valuation for 1994–95. Districts could call elections to increase the $1.50 limit by local voter authorization to no more than $2.00, but only for the purpose of issuing new debt. The legislature has made significant changes in tax rate limitations for the 1995–96 school year.

In 1994–95, a district was allowed to set a tax rate that would generate the same amount of total revenue per weighted student as was generated the prior year. That rate, plus $0.06, became the

EXHIBIT 19

Average Revenue Per Pupil by Source, by Wealth Decile



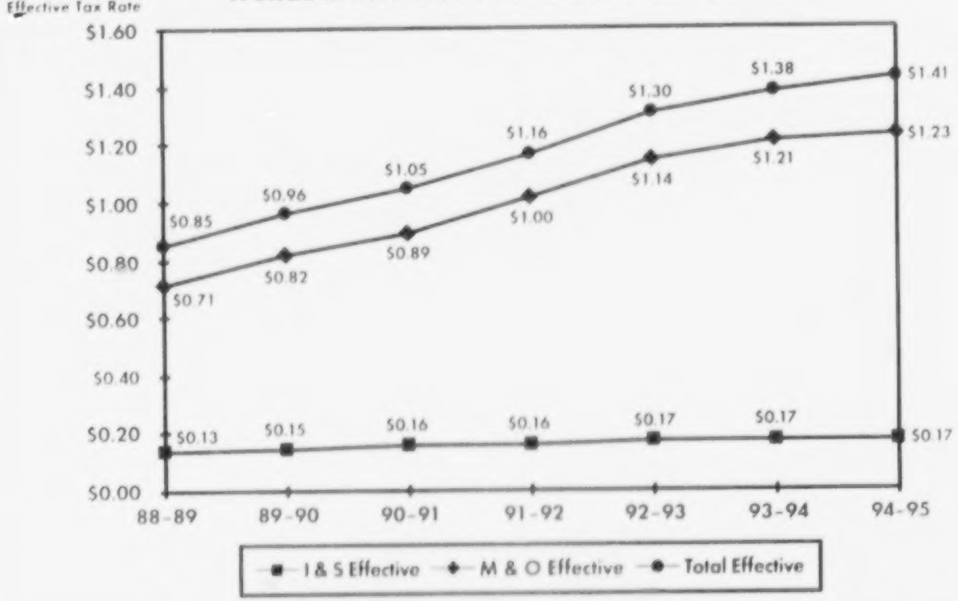
The FSP is designed to deliver proportionately more funds to those districts less able to generate local funds. Approximately 10 percent of the districts in the state are represented by each bar on this graph. Average revenue per pupil for the wealthiest districts is $6,164. The next highest average revenue figure is $5,136 and the variation in revenue among all but the wealthiest districts is less than $500 per pupil.

district's rollback tax rate. If a district set a tax rate above the rollback rate, an election was automatically triggered and the voters decided whether or not to limit the adopted rate to the rollback rate.

Districts continue to exhibit increases in local tax effort. The total average effective tax rate has risen from $0.85 per $100 valuation in 1988–89 to $1.41 in 1994–95, a 66 percent increase in six years. See *Exhibit 20*. The total average effective rate this year is three cents greater than the year before, which was eight cents greater than the 1992–93 rate. Almost all the districts in the state (96 percent) now have total effective rates over $1.00, compared with 23 percent at this level six years ago.

EXHIBIT 20

Trends in Effective Tax Rates: 1989 to 1995



School district tax rates continue to increase, driven in part by a growing student population. The M&O rate depicted in 1991–92 and 1992–93 is composed of the local M&O rate plus the minimum required CED rate.

In 1994–95, statewide taxable property values totaled $638.9 billion, about $11.2 billion (1.8 percent) greater than they were in 1993–94. This continued an upward trend which began in 1993–94 when statewide taxable property values totaled $627.7 billion, about $6.6 billion (1.1 percent) more than the previous year.

Given increasing property values, districts can tax at the same rate and generate greater levy amounts than in prior years. However, districts in Texas increased their local tax effort 2.2 percent despite the slight rise in property values. A possible explanation for the increase in local effort is the growing student population which requires higher tax rates in order to generate the same levy amounts per pupil.

FEDERAL FUNDS

Almost all federal funds are appropriated by Congress for specific programs or specific populations of students, and must be expended for designated purposes. The majority of these federal funds must be spent to supplement programs already in place, not to relieve the state of its financial obligation to provide programs that address the needs of special students. Often, the federal appropriations permit local and state use of each state's allocation. The portion of the state's allocation to be spent by local school districts is distributed by formula. The remaining allocation is discretionary and may be spent at either the state or local level.

Examples of federal sources of funding to school districts are the National School Lunch Program, various special education funds, and the Improving America's Schools Act Title I program for low-income students.

ACCOUNTING FOR THE SYSTEM

Texas public school districts use a uniform accounting system to record revenues and expenditures. Other entities, such as regional education service centers and county, state, and federal governments also receive and spend funds on behalf of public education in Texas. School district revenues, in combination with the revenues of these other entities, are referred to as total receipts. All expenditures made by local school districts, plus the additional expenditures made by all other entities for public education are referred to as total disbursements.

RECEIPTS

The major sources of revenue for public education are the state FSP and the tax revenue generated at the local level by districts. *Exhibit 21* shows all receipts collected and all disbursements made on behalf of public education, by their source. Receipts equal total revenue from all sources plus other resources; disbursements equal total expen-

EXHIBIT 21

1994–95 Receipts and Disbursements by Source

Originating Source	Receipts	Pct. of Total	Spending Agents	Disbursements	Pct. of Total
Local	$9,894,301,851	45.5%	Local	$19,831,161,837	90.7%
State	$8,999,266,813	41.4%	State	$1,038,026,870	4.7%
Federal	$1,692,012,870	7.8%	Federal	$42,031,512	0.2%
Other (ESC and County)	$82,081,067	0.3%	Other (ESC and County)	$209,178,606	1.0%

TOTAL RECEIPTS	$21,763,113,315	100.0%	TOTAL DISBURSEMENTS	$21,853,792,400	100.0%

The sources of the data shown are TEA accounting records and financial data reported to the TEA by all school districts. Revenues and expenditures in this exhibit do not match revenue and expenditure items in the ***District Detail*** *for two reasons: 1) the* ***Detail*** *reports budgeted information while this exhibit shows estimated actual amounts, and 2) the* ***Detail*** *shows revenue and expenditures of only one entity involved in public education spending: local school districts. Note that in this exhibit, state revenues include an estimated $136 million in local revenues redistributed by the state.*

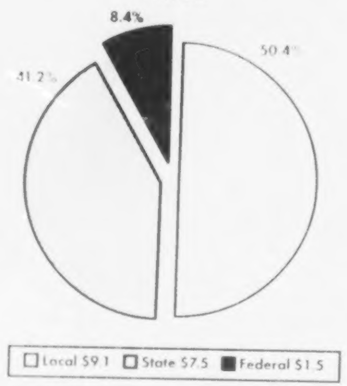
ditures by all spending entities plus other uses. Other resources and other uses are related to local debt obligations.

Local revenue, $9.9 billion, represents only those funds received directly by school districts. State revenue, $9 billion, includes FSP funding and other items such as textbook purchases and state-matching contributions to the Teacher Retirement System. Beginning with 1993–94, state revenue also includes revenues collected from districts exercising one of the wealth equalizing options. For 1994–95, $136 million was collected through this feature of the FSP. These local tax dollars were redistributed as state aid. Additional revenue sources shown in the exhibit include federal funds and county and service center contributions. Other resources are composed of the local issuance of debt and income from the sale of assets. Overall, total receipts in 1994–95 increased to $21.8 billion, 2.3 percent more than they were in 1993–94.

EXHIBIT 22

Revenue by Source

In Billions



Districts budgeted $18.1 billion in total revenues in 1994–95, an increase of 4.8 percent over 1993–94. The vast majority of local funds, 92 percent, are from local property taxes. The distribution shown in this exhibit is affected by the inclusion of debt service funds, which are almost entirely generated from local sources.

DISTRICT REVENUES

Total revenue from all sources (local, state, federal, and other) totaled $20.7 billion in 1994–95. Of this, $18.1 billion was budgeted by local school districts, representing an increase in district budgets of 4.8 percent over 1993–94 amounts. The difference between district budgeted revenues and total revenue from all sources is $2.6 billion. A portion of this difference can be attributed to revenues for items such as textbook purchases and state-matching contributions to the Teacher Retirement System which are not budgeted by local districts. The most significant portion of the difference, however, is due to the fact that districts historically under-budget the revenues they actually receive.

Exhibit 22 shows district budgeted revenues by source. Local funds comprise 50.4 percent of total revenues in 1994–95, the same percentage as in 1993–94. The vast majority of local funds, 92 percent, are from local property taxes. Overall, the amount budgeted as local revenue increased 4.8 percent relative to 1993–94, while state revenues increased by 3.7 percent. A significant portion of the increase in state revenues can be attributed to the $136 million in local tax revenue redistributed by the state in 1994–95.

Federal revenues increased by 10.2 percent. Furthermore, federal revenues as a percentage of the total increased from 8.0 in 1993–94 to 8.4 percent this year. In any district, the composition and level of revenue sources may vary substantially from the state average depending upon local wealth and qualifications for federal assistance.

In the latter half of the 1980s, the local portion of total revenues rose significantly. In 1984–85 the local portion was 48 percent; by 1989–90 it had grown to nearly 53 percent. Conversely, the state portion had steadily decreased from a high of 46 percent in 1984–85 to a low of 40 percent in 1989–90. In 1990–91, the percent of revenue from state funds increased to 41.4 percent due to an additional $500 million injected into the system as a result of Senate Bill 1. The percent of revenue from state funds fell slightly in 1992 and 1993; to 40.5 percent both years. The state share increased to 41.6 percent in 1993–94 due to the redistribution of revenues for equalization under Senate Bill 7. This year the percentage of total revenues attributed to state sources decreased slightly to 41.2 percent.

DISBURSEMENTS

As *Exhibit 21* on page 25 shows, nearly 91 percent of the disbursements for public school education are made by local school districts. The remaining 9 percent are expended directly from other governmental entities such as state, county and federal governments, and ESCs. Examples of state disbursements include expenditures for textbooks, state-administered schools, the Teacher Retirement System, and the TEA.

DISTRICT EXPENDITURES

Expenditures are recorded by fund, function, object, and in some cases, by program. Functions describe the broad purposes of expenditures, such as instruction or administration. Object classifications describe the service or item purchased, for example payroll or supplies and materials. Program classifications are used to identify instructional areas or arrangements, such as the regular, special, career and technology, and bilingual education programs. *Exhibit 23* shows the distribution of various expenditure categories by function, object, and program.

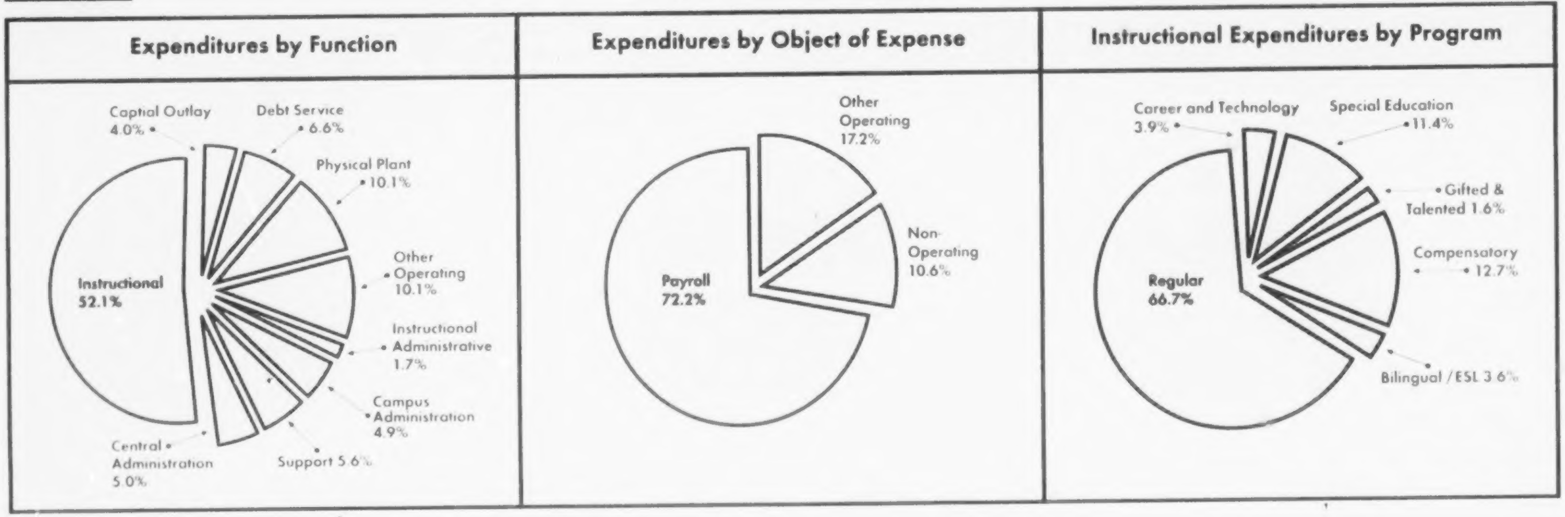
In 1994–95, local school district budgeted expenditures totaled $18.6 billion, an increase of 5.2 percent over 1993–94. This results in $5,057 per pupil, compared with $4,898 in 1993–94.

■ EXPENDITURES BY FUNCTION

Expenditures for instruction accounted for over half (52.1 percent) of all budgeted funds.

EXHIBIT 23

Expenditure Analysis



Expenditures by Function

Expenditures by Object of Expense

Instructional Expenditures by Program

Expenditures by function and object depict total expenditures budgeted for 1994–95. The third pie chart, instructional expenditures by program, is a more detailed analysis of the "instructional" function portion (52.1 percent) of the first pie chart.

BEST COPY AVAILABLE

These costs include all activities dealing directly with the instruction of pupils, including teacher and educational aide salaries, instruction through the use of computers, and classroom equipment purchases.

Other major expenditures by function are for support services which include administration, 11.6 percent; plant services, 10.1 percent; and libraries and pupil services, 5.6 percent.

■ EXPENDITURES BY PROGRAM

Instructional expenditures are categorized by program. In 1994–95, $9.7 billion was budgeted for instructional expenditures. The majority of these funds, 66.7 percent, is spent on the regular program. The remainder is spent for compensatory education, 12.7 percent; special education, 11.4 percent; career and technology education, 4.0 percent; bilingual education/English as a second language programs, 4.0 percent; and gifted and talented education, 1.6 percent.

■ EXPENDITURES BY OBJECT

School district object expenditures are divided into current operating and non-operating categories. Current operating expenditures are all salaries, services and supplies. Non-operating expenditures include the construction or remodeling of facilities, and the repayment of debt.

Payroll represents 72.2 percent of all school district expenditures. Expenditures under "other operating" which include purchased and contracted services, and supplies and materials, account for an additional 17.2 percent of the budget. Debt service and capital outlay, both non-operating categories, make up the remaining 10.6 percent.

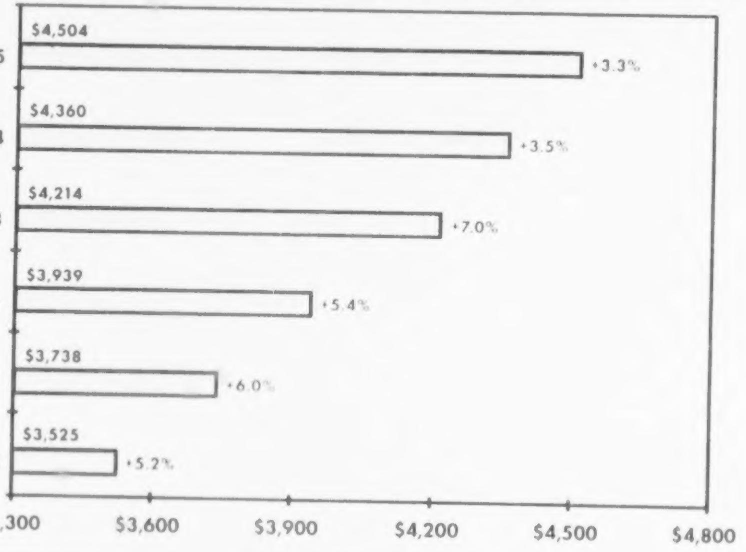
Exhibit 24 depicts the increases in per pupil operating expenditures that have occurred since 1989–90. Payroll accounts for 80.8 percent of current operating expenditures and includes salaries, wages, and employee benefits for school district employees.

EXCLUSION OF FUNDS

Some funds have been excluded from the figures presented in this document to allow for greater comparability among districts. Amounts in these

EXHIBIT 24

Trends in Operating Expenditures Per Pupil: 1990 to 1995



Budgeted operating expenditures per pupil have increased 27.8 percent since 1989–90. Percentages shown represent year-to-year changes.

funds are reported by districts involved in cooperatives and capital projects.

COOPERATIVES

Some districts participate in cooperative arrangements with other districts. The fiscal agent or manager of the cooperative may be another district, an ESC, or a county. One of the most common types of cooperatives is a special education cooperative, where special education services are shared among member districts. An indicator is shown in the *District Detail* for each district that participates in, or is a fiscal agent of, a special education cooperative. These districts may have per pupil expenditure amounts that differ from expectations because students served through the fiscal agent are not necessarily enrolled in the fiscal agent district. To correct for this problem, any amounts budgeted in fund group 800, fiduciary fund types, have been excluded from the *District Detail* figures presented in this document. Total revenues and expenditures reported in fund group 800 are approximately $101.9 million and $129 million, respectively.

CAPITAL PROJECTS FUND/FACILITIES

Amounts reported in fund 600, the fund code used to account for all capital projects, have also been excluded to allow for better comparability between districts.

In response to increasing enrollments, school districts have consistently increased indebtedness to expand facilities, and as a result, debt service payments have risen. For the 1993–94 school year, the last year for which data are available, total school district debt was estimated to be approximately $9.3 billion, compared to $5.7 billion 10 years ago.

During the past four years, school districts have been spending approximately $1.2 billion annually to meet their debt service obligations for principal and interest. For the 1994–95 school year, districts reported they anticipated collecting $1.1 billion in debt service tax revenues. Debt service payments are budgeted to be $1.2 billion, or 6.6 percent of all school district expenditures, excluding capital outlay.

More than 64 percent of all school districts have debt service payments. Among these districts, the average effective debt service tax rate is $0.20. Districts with the highest debt service tax rates are among the poorest in property value per pupil.

DETAILED STATISTICS

Extensive information about students, student performance, district staff, and district finances for 1994–95 follows. Group summary tables and distribution tables are presented on pages 32 through 55, followed by individual school district data beginning on page 56.

CATEGORY DESCRIPTIONS

Items are summarized by district size, community type, property wealth, total effective tax rate, and ESC region. A description of each of these summary groups is provided below.

ENROLLMENT GROUPINGS

Districts are grouped by size into nine categories based on the number of students in membership. This is the total number of students in membership in the district on a day in late October. It does not include students who are served by the district but who are not in membership there.

COMMUNITY TYPE

Districts are classified on a scale ranging from major urban to rural. Factors such as size, growth rates, and proximity to urban areas are used to determine the appropriate group. The groups are:

- **MAJOR URBAN**
  The largest school districts in the state which serve the seven metropolitan areas of Houston, Dallas, San Antonio, Fort Worth, Austin, Corpus Christi, and El Paso.
- **MAJOR SUBURBAN**
  Other school districts in and around the major urban areas.
- **OTHER CENTRAL CITY**
  The major school districts in other large Texas cities.
- **OTHER CENTRAL CITY SUBURBAN**
  Other school districts in and around the other large, but not major, Texas cities.
- **INDEPENDENT TOWN**
  The largest school districts in counties with populations of 25,000 to 100,000.
- **NON-METRO: FAST GROWING**
  The school districts that fail to be in any of the above categories and that exhibit a five year growth rate of at least 20 percent. These districts must have at least 300 students in membership.
- **NON-METRO: STABLE**
  The school districts that fail to be in any of the above categories, yet the number of students in membership exceeds the state median.
- **RURAL**
  The school districts that fail all of the above tests for placement into a category. These districts either have a growth rate less than 20 percent and the number of students in membership is between 300 and the state median, or the number of students in membership is less than 300.

TOTAL EFFECTIVE TAX RATES

Districts are grouped into four tax effort categories, or quartiles, with approximately equal numbers of districts in each. This category shows the total effective tax rate, which is determined by dividing the 1994 total levy amount by the 1994 total taxable property value (as certified by the Comptroller's Property Tax Division). The six special statutory districts are in a separate category because they do not levy property taxes.

PROPERTY WEALTH

Wealth is defined as total taxable property value divided by the total number of students, and is used as an indicator of a district's ability to raise local funds on a per pupil basis. The property value used is total taxable value for 1994 as determined by the Comptroller's Property Tax Division. The total number of students is for the 1994–95 school year. Districts are classified into 20 categories with approximately equal numbers of students in each, or approximately five percent of total students per category. The six special statutory districts form a separate group because they have no taxable property wealth.

EDUCATION SERVICE CENTER REGIONS

The state is divided into 20 geographic regions, each served by an Education Service Center. The number of districts served by each ESC region varies.

DISTRIBUTION STATISTICS

This information is presented to help readers better understand the distribution of values for a particular item. By examining the variance between the high, low, and intermediate values, it is possible to determine whether districts have similar characteristics on some measures, such as pupil to teacher ratios, or very different characteristics on others, such as total number of students.

Each item is analyzed independently: the district with the highest value for one item is not necessarily the district with the highest value for other items. The terms used are defined as follows:

- **LOWEST (HIGHEST) VALUE**
  For any given item, the lowest (highest) value found among all the districts.
- **XXTH PERCENTILE**
  For any given item, a value at the point in the distribution where XX percent of the school districts are below the value. For example, the 10th percentile means that 10 percent of the school districts have values lower than the value shown.
- **MEDIAN**
  For any given item, the value at the point in the distribution where half of the school districts are below the value, and half are above.
- **STATE OF TEXAS**
  For most items this is the sum of all the reported district values. For ratios or percent calculations, the state total is computed as the sum of all the numerators, divided by the sum of all the denominators. For these items, the state statistic is a weighted state average.

DISTRICT DETAIL

The information for school districts is sequenced such that all 87 data items are presented in a six page layout for approximately 20 districts at a time. The 87 items pertain to students, student performance, district staff, and district finances.

Districts are sequenced alphabetically within counties. Counties are numbered and are also arranged alphabetically. To locate a particular district by name, see the *District Listing* in the appendix. This listing provides the county and county number needed to find a district in *District Detail* section. As with the grouped reports (size, type, tax effort, wealth, ESC regions) and *Distribution Statistics*, a state summary line concludes the *District Detail*.

Definitions of the 87 data items begin on page 350.

718

ITEM DEFINITIONS

Items are defined in the sequence they appear in the *District Detail* section of the report. The data items are numbered to correspond with numbers used in the column headings. To ascertain data sources for these items, refer to the *Data Sources* appendix which cross-references sources with the items defined below.

COUNTY NUMBER AND NAME: The county number is a unique identifier assigned to each county for administrative purposes. The numbers correspond to the alphabetic arrangement of county names. *(Source: Organization Master Files)*

DISTRICT NAME: The name of the district which includes a designator for the governance system. These designators are:

ISD (Independent School District): A locally elected board of trustees governs the district.
CSD (Common School District): The county commissioners court governs the school district.
MSD (Municipal School District): The city council governs the school district.

Most school districts are independent school districts. Due to space limitations, the "ISD" designation has been omitted but other governance designators have been retained. *(Source: Organization Master Files)*

REGION: The Education Service Center (ESC) region from which the district receives educational services. This is not the service center assignment based upon geographic location, although in most cases they are the same. There are 20 ESCs serving districts in the state. *(Source: Organization Master Files)*

CO-OP STATUS: An indicator of whether or not a district participates in a special education cooperative. An "F" indicates the district is a fiscal agent, an "M" indicates the district is a member, and a blank means the district does not participate. For these districts, dollar amounts per student may be distorted because student counts and budgeted expenditures may be reported by different districts. Districts participating in other types of cooperatives are not indicated. *(Source: Special Ed. Co-ops)*

1. **ACCREDITATION STATUS:** The accreditation status of the district as of October 1995. Districts are classified as either Exemplary (EX); Recognized (RE); Accredited (AC); or, Accredited, Warned (AW). Approximately 82 percent of the districts in the state are accredited. See the TEA publication *Accountability Manual: The 1995 Accountability Rating System for Texas Public Schools and School Districts* for a detailed description of the 1995 accountability criteria and standards. *(Source: Division of Performance Reporting)*

2. **TOTAL NUMBER OF SCHOOLS:** A count of campuses in a district which have a unique state-assigned nine-digit identifier and had students enrolled as of October 28, 1994. *(Source: Organization Master Files; PEIMS, 110)*

3. **NUMBER OF REGULAR HIGH SCHOOLS:** The number of high school campuses in a district identified by the range of grades offered as reported to the TEA. Seventy-nine percent of the schools that are classified as high schools offer grades 9–12. See *Exhibit B* in the *Endnotes* for the other grade configurations which are categorized as high schools. *(Source: Organization Master Files)*

4. **TOTAL STUDENTS:** The number of students in membership as of October 28, 1994, in grades pre-kindergarten through twelve. Membership is defined as the count of students enrolled with an average daily attendance status code that is not equal to zero. Students with a status code of zero, meaning enrolled but not in membership, are not included in this item. Statewide, 6,975 students, or 0.2 percent of all students, are not included in this item. *(Source: PEIMS, 110)*

5. **FIVE-YEAR % CHANGE IN TOTAL STUDENTS:** The percent change in total students for the five-year period from 1989–90 to 1994–95. *(Sources: Fall Survey of Pupils; PEIMS, 110)*

6. **% AFRICAN AMERICAN:** Percentage of total students reported as African American. *(Source: PEIMS, 110)*

7. **% HISPANIC:** Percentage of total students reported as Hispanic. *(Source: PEIMS, 110)*

8. **% WHITE:** Percentage of total students reported as white. *(Source: PEIMS, 110)*

9. **% OTHER:** Percentage of total students reported as other. Other is the combination of Asian/Pacific Islander and Native American counts. *(Source: PEIMS, 110)*

10. **% ECONOMICALLY DISADVANTAGED:** Percentage of total students reported as economically disadvantaged. Economically disadvantaged students are those who are eligible for free meals under the National School Lunch and Child Nutrition Program, reduced-price meals under the National School Lunch and Child Nutrition Program, or other public assistance. Students reported with any one of these three status codes may or may not be enrolled in a special program such as compensatory or special education. *(Source: PEIMS, 110)*

11. **% SPECIAL EDUCATION:** Students identified as participating in special education expressed as a percent of total students. Students in special education may also be counted in another special program such as career and technology or bilingual/ESL education. *(Source: PEIMS, 110)*

12. **% BILINGUAL/ESL EDUCATION:** Students identified as participating in bilingual education or English as a second language (ESL) expressed as a percent of total students. Students in bilingual/ESL education may also be counted in another special program such as special education or career and technology. *(Source: PEIMS, 110)*

13. **% CAREER AND TECHNOLOGY EDUCATION:** Students identified as taking career and technology education courses expressed as a percent of total students. Students taking these courses may also be counted in another special program such as special or bilingual education. *(Source: PEIMS, 110)*

14. **% GIFTED AND TALENTED EDUCATION:** Students identified and served in state-approved gifted and talented programs expressed as a percent of total students. Students in gifted and talented education may also be counted in another special program such as career and technology or bilingual/ESL education. *(Source: PEIMS, 110)*

15. **ATTENDANCE RATE (1993-94):** The total number of days students were present in 1993–94 divided by the total number of days students were in membership in 1993–94. Only students in grades 1 through 12 are included in the calculations. *(Source: PEIMS, 400)*

16. **ANNUAL DROPOUT RATE (1993-94):** The total number of 1993–94 dropouts reported in grades 7–12 expressed as a percent of the total number of students in membership in grades 7–12 during 1993–94.

    Districts with 7–12th graders which reported that no students dropped out have a zero (0) dropout rate. If dropout data are not required for a district because only lower grades are offered, then an "n/a" is printed. "LT5" will appear in cases where there were fewer than five 7–12th graders, to protect the students' anonymity. *(Source: PEIMS, 201, 400)*

17. **NUMBER OF GRADUATES (CLASS OF 1994):** The number of students who graduated during the 1993–94 school year, including the summer of 1994. Counts of graduates identified as receiving special education services are included in this total. *(Source: PEIMS, 202)*

18. **% PASSING ALL TESTS TAKEN:** The total number of students who passed all the tests they attempted expressed as a percentage of the total number of students who took one or more tests. The performance of students tested in grades 3 through 8 and 10 in reading and mathematics, and grades 4, 8, and 10 in writing are included. Science and social studies results are not included. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. *(Source: TAAS)*

19. **% PASSING READING:** For all grades, the total number of students who passed reading, expressed as a percentage of the total number of students tested in reading. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. In the spring of

1995, reading was administered to students in grades 3 through 8 and 10. *(Source: TAAS)*

20. **% PASSING WRITING:** For all grades, the number of students who passed writing, expressed as a percentage of the total number of students tested in writing. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. In the spring of 1995, writing was administered to students in grades 4, 8, and 10 only. *(Source: TAAS)*

21. **% PASSING MATHEMATICS:** For all grades, the number of students who passed mathematics, expressed as a percentage of the total number of students tested in mathematics. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. In the spring of 1995, mathematics was administered to students in grades 3 through 8 and 10. *(Source: TAAS)*

22. **% AFRICAN AMERICAN STUDENTS PASSING:** For all grades and the subject areas of reading, writing, and mathematics, the number of African American students who passed all the tests they attempted, expressed as a percentage of the total number of African American students tested on at least one examination. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. *(Source: TAAS)*

23. **% HISPANIC STUDENTS PASSING:** For all grades and the subject areas of reading, writing, and mathematics, the number of Hispanic students who passed all the tests they attempted, expressed as a percentage of the total number of Hispanic students tested on at least one examination. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. *(Source: TAAS)*

24. **% WHITE STUDENTS PASSING:** For all grades and the subject areas of reading, writing, and mathematics, the number of white students who passed all the tests they attempted, expressed as a percentage of the total number of white students tested on at least one examination. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. *(Source: TAAS)*

25. **% OTHER STUDENTS PASSING:** For all grades and the subject areas of reading, writing, and mathematics, the number of Asian/Pacific Islander and Native American students who passed all the tests they attempted, expressed as a percentage of the total number of Asian/Pacific Islander and Native American students tested on at least one examination. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. *(Source: TAAS)*

26. **% ECONOMICALLY DISADVANTAGED STUDENTS PASSING:** For all grades and the subject areas of reading, writing, and mathematics, the number of economically disadvantaged students who passed all the tests they attempted, expressed as a percentage of the total number of economically disadvantaged students tested on at least one examination. Special education students and their scores have been excluded. "LT5" will appear in cases where fewer than five students were tested, to protect the students' anonymity. If no students were tested, an "n/a" is printed. *(Source: TAAS)*

27. **PERCENT TESTED (CLASS OF 1994):** The count of students expected to graduate who took either the Scholastic Aptitude Test (SAT) or the enhanced ACT of the American College Testing program at least once prior to April 1994 for the SAT or prior to July 1994 for the ACT, expressed as a percent of all graduates. Note that the count of graduates in the denominator does not include special education graduates. *(Source: SAT/ACT File; PEIMS, 202)*

28. **PERCENT AT OR ABOVE CRITERION (CLASS OF 1994):** The count of students expected to graduate who, on their most recent test, scored at

or above the criterion score (1000 on the SAT or 24 on the ACT) expressed as a percent of all graduates. Note that the count of graduates in the denominator does not include special education graduates. *(Source: SAT/ACT File; PEIMS, 202)*

29. **SAT–MEAN TOTAL SCORE (CLASS OF 1994):** The sum of the mathematics and verbal portions of the SAT divided by the number of students tested. Total scores for the SAT range from 400 to 1600. These results include only the most recent scores received by graduates on an SAT taken anytime during their high school years. Scores are reported for 12th graders who expected to graduate during the 1993–94 school year.

    If no students were tested or no scores were reported, then an "n/a" is printed. "LT5" will appear in cases where fewer than five students were tested, to protect the confidentiality of the students' test scores.

    Only the March 1994 administration of the new SAT I is included with the class of 1994 scores; thus, the traditional SAT test title is retained in this year's report. *(Source: SAT/ACT File)*

30. **ACT–MEAN COMPOSITE SCORE (CLASS OF 1994):** The average of the ACT composite scores (an average of English, mathematics, reading, and science reasoning portions of the ACT), created by summing the composite scores and dividing by the number of students tested. Composite scores for the ACT range from 1 to 36. Composite scores include only the most recent scores received by graduates during either their junior or senior years. Scores are reported for 12th graders who expected to graduate during the 1993–94 school year.

    Since October 1989, a revised ACT, the Enhanced ACT Assessment, has been administered. All uses of the term ACT in this publication refer to this revised test.

    If no students were tested or no scores were reported, then an "n/a" is printed. "LT5" will appear in cases where fewer than five students were tested, to protect the confidentiality of students' test scores. *(Source: SAT/ACT File)*

31. **TOTAL STAFF FTE:** A count of all personnel employed by the school district as of fall 1994, including both professional and non-professional positions. All staff counts are expressed as full-time equivalents (FTEs). The appropriate portion of an FTE is allocated to each of the responsibilities associated with an individual based on a percentage of total time worked. *(Source: PEIMS, 050)*

32. **TOTAL TEACHER FTE:** The FTE count of personnel categorized as teachers, including special duty and substitute teachers. *(Source: PEIMS, 050, 090)*

33. **% CENTRAL ADMINISTRATIVE:** The FTE count of personnel classified as administrators in the central office expressed as a percent of total staff FTEs. Central office administrators include superintendents, assistant superintendents, business managers, tax assessor-collectors, and directors of personnel, as well as instructional officers and athletic directors, if reported with a "700" campus code. See *Exhibit D* in the *Endnotes* for a complete listing. *(Source: PEIMS, 050, 090)*

34. **% CAMPUS ADMINISTRATIVE:** The FTE count of personnel classified as campus administrators expressed as a percent of total staff FTEs. Campus administrators include principals and assistant principals, as well as instructional officers and athletic directors, if reported with a campus code other than "700." See *Exhibit D* in the *Endnotes* for a complete listing. *(Source: PEIMS, 050, 090)*

35. **% PROFESSIONAL SUPPORT STAFF:** The FTE count of personnel categorized as support staff expressed as a percent of total staff FTEs. Support staff are defined as therapists, psychologists, counselors, diagnosticians, physicians and nurses, librarians, supervisors, department heads, registrars, and miscellaneous other support roles. See *Exhibit D* in the *Endnotes* for a complete listing. *(Source: PEIMS, 050, 090)*

36. **% TEACHERS:** The teacher FTE count expressed as a percent of total staff FTEs. *(Source: PEIMS, 050, 090)*

37. **% EDUCATIONAL AIDES:** The FTE count of personnel categorized as educational aides, or educational aides/interpreters, expressed

as a percent of total staff FTEs. Educational aides perform routine classroom tasks under the general supervision of a certified teacher or teaching team. Interpreters translate for students who are deaf or hearing-impaired. *(Source: PEIMS, 050, 090)*

38. **% AUXILIARY STAFF:** The FTE count of personnel categorized as auxiliary staff expressed as a percent of total staff FTEs. Auxiliary staff are those personnel for whom no role is reported. Examples include cafeteria workers and bus drivers. *(Source: PEIMS, 050, 090)*

39. **AVERAGE CENTRAL ADMINISTRATIVE SALARY:** The total salary of central administrators divided by the total FTE count of central administrators. The total salary amount is base pay only; any supplements are excluded. *(Source: PEIMS, 060)*

40. **AVERAGE CAMPUS ADMINISTRATIVE SALARY:** The total salary of campus administrators divided by the total FTE count of campus administrators. The total salary amount is base pay only; any supplements are excluded. *(Source: PEIMS, 060)*

41. **AVERAGE PROFESSIONAL SUPPORT STAFF SALARY:** The total salary of professional support staff divided by the total FTE count of professional support staff. The total salary amount is base pay only; any supplements are excluded. *(Source: PEIMS, 060)*

42. **AVERAGE TEACHER SALARY:** The total salary of teachers divided by the total FTE count of teachers. The total salary amount is base pay only; any supplements are excluded. *(Source: PEIMS, 060)*

43. **% MINORITY:** The FTE count of all personnel reported as non-white expressed as a percent of total staff FTEs. *(Source: PEIMS, 040)*

44. **NUMBER OF STUDENTS PER TOTAL STAFF:** The total number of students divided by the total staff FTE count. *(Source: PEIMS, 050, 110)*

45. **NUMBER OF STUDENTS PER TEACHER:** The total number of students divided by the total teacher FTE count. *(Source: PEIMS, 090, 110)*

46. **% TEACHERS WITH 1 OR MORE PERMITS:** The FTE count of teachers holding at least one permit as of fall 1994, expressed as a percent of the total teacher FTE count. Teachers with multiple permits are counted only once.

ESCs issue four types of permits that meet different situations and require different qualifications: emergency teaching for certified personnel, emergency teaching for uncertified personnel, nonrenewable, and temporary exemption. District superintendents may activate temporary classroom assignment permits without TEA approval. Teachers holding one or more of any of these five types of permits are included in the count. *(Source: PEIMS, 081)*

47. **% WITH 5 OR FEWER YEARS OF EXPERIENCE:** The FTE count of teachers with zero through five total years of professional experience expressed as a percent of the total teacher FTE count. Total years of professional experience includes experience earned in another Texas school district or in another state. *(Source: PEIMS, 040)*

48. **AVERAGE YEARS OF EXPERIENCE:** A weighted average obtained by multiplying each teacher's FTE count by his or her years of experience, summing for all weighted counts, and then dividing by total teacher FTEs. Adjustments have been made so that teachers with zero years of experience are appropriately weighted in the formula. *(Source: PEIMS, 040)*

49. **% WITH ADVANCED DEGREES:** The FTE count of teachers with master's or doctoral degrees expressed as a percent of total teachers. *(Source: PEIMS, 040)*

50. **TEACHER TURNOVER RATE:** The total FTE count of teachers not employed in the district in the fall of 1994–95 who were employed in the district in the fall of 1993–94, divided by the total teacher FTE count for the fall of 1993–94. *(Source: PEIMS, 050,090)*

51. **% AFRICAN AMERICAN:** The FTE count of teachers reported as African American expressed as a percent of total teacher FTEs. *(Source: PEIMS, 040)*

52. **% HISPANIC:** The FTE count of teachers reported as Hispanic expressed as a percent of total teacher FTEs. *(Source: PEIMS, 040)*

53. **% WHITE:** The FTE count of teachers reported as white expressed as a percent of total teacher FTEs. *(Source: PEIMS, 040)*

54. **% OTHER**: The FTE count of teachers reported as Asian/Pacific Islander or Native American expressed as a percent of total teacher FTEs. *(Source: PEIMS, 040)*

55. **% REGULAR EDUCATION**: The FTE count of teachers identified as serving students receiving regular education instruction expressed as a percent of total teacher FTEs. *(Source: PEIMS, 090)*

56. **% SPECIAL EDUCATION**: The FTE count of teachers identified as serving students receiving special education instruction expressed as a percent of total teacher FTEs. *(Source: PEIMS, 090)*

57. **% COMPENSATORY EDUCATION**: The FTE count of teachers identified as serving students receiving compensatory education instruction expressed as a percent of total teacher FTEs. *(Source: PEIMS, 090)*

58. **% BILINGUAL/ESL EDUCATION**: The FTE count of teachers identified as serving students receiving bilingual education or English as a second language (ESL) instruction expressed as a percent of total teacher FTEs. *(Source: PEIMS, 090)*

59. **% CAREER AND TECHNOLOGY EDUCATION**: The FTE count of teachers identified as serving students receiving career and technology education instruction expressed as a percent of total teacher FTEs. *(Source: PEIMS, 090)*

60. **% OTHER EDUCATION (INCLUDES GIFTED AND TALENTED)**: The FTE count of teachers identified as serving students receiving gifted and talented education instruction, students in honors classes, and students served in migrant programs, expressed as a percent of total teacher FTEs. On average, 99 percent of this category consists of teachers serving gifted and talented or honor students. *(Source: PEIMS, 090)*

61. **TAXABLE VALUE PER PUPIL**: The district's total taxable property value in 1994 as determined by the Comptroller's Property Tax Division (CPTD), divided by the total number of students in the district in 1994–95. This per pupil figure is often referred to as "wealth." Property value is determined by the CPTD as part of its annual study which attempts to present uniformly appraised property valuations statewide. The CPTD value is calculated by applying ratios created from uniform independent appraisals to the district's assessed valuations. *(Sources: CPTD Study; PEIMS, 110)*

62. **EQUALIZED TOTAL TAX RATE**: The sum of the district maintenance and operation (M&O) and debt service (Interest & Sinking fund) effective tax rates. The components of this total rate are calculated by dividing the 1994 levy amounts by the CPTD taxable value for 1994. Rates are expressed per $100 of taxable value. (NOTE: The CPTD taxable value is not the same as the locally assessed value.) *(Sources: CPTD Study; CPTD Self Report)*

63. **STATE AID PER PUPIL**: The amount of state money allocated to the school district under the Foundation School Program divided by the district's total student count. *(Sources: Foundation Master; PEIMS, 110)*

64. **TOTAL REVENUE**: Budgeted revenue from all local, state, and federal sources, except for receipts from the sale of bonds and other revenues budgeted in fund 600, the capital projects fund. See *Exhibit C* in the *Endnotes* for a technical description of this item. *Bulletin 679, Financial Accounting Manual* sets standards for the accounting of revenues. *(Source: PEIMS, 030)*.

65. **TOTAL REVENUE PER PUPIL**: Total revenue divided by total students. *(Source: PEIMS, 030, 110)*

66. **% STATE**: Revenue from state sources, such as per capita and foundation program payments, revenue from other state-funded programs and revenue from other state agencies, expressed as a percent of total revenue. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

67. **% LOCAL AND OTHER**: Revenue from local taxes, other local sources, and intermediate sources expressed as a percent of total revenue. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

68. **% FEDERAL**: Revenue received directly from the federal government or distributed by the TEA for career and technology education, for programs for educationally disadvantaged children, for food service programs, and for other federal programs, expressed as a percent of total revenue. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

69. **FUND BALANCE (END OF 1993–94):** For each district, the amount of unencumbered surplus fund balance that existed at the end of the 1993–94 school year. In most districts, this amount is equivalent to the fund balance at the beginning of 1994–95. *(Source: Financial Audit Report)*

70. **% FUND BALANCE (OF 1994–95 BUDGET):** The amount of unencumbered surplus fund balance expressed as a percent of the total budgeted expenditures for the current year (1994–95). *(Source: Financial Audit Report; PEIMS 030)*

71. **TOTAL EXPENDITURES:** Budgeted outlays of money for all functions and objects, except for expenditures budgeted in fund 600, the capital projects fund. *Bulletin 679, Financial Accounting Manual* sets standards for the accounting of expenditures.

Expenditures are accounted for using codes for fund, function, object, organization, and in some cases, program area. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

72. **% INSTRUCTIONAL:** The percentage of total expenditures budgeted for instructional expenditures in the district. Instructional expenditures include expenditures for all activities dealing directly with the instruction of pupils, including instruction aided with computers. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

73. **% CENTRAL ADMINISTRATIVE:** The percentage of total expenditures budgeted for central administrative expenditures in the district. Central administrative expenditures include expenditures for the general administration of the district, the development of personnel and curriculum, and data processing services. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

74. **% CAMPUS ADMINISTRATIVE:** The percentage of total expenditures budgeted for campus administrative expenditures in the district. Campus administrative expenditures include expenditures for the operation and management of a school. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

75. **% PLANT SERVICES:** The percentage of total expenditures budgeted for physical plant maintenance and operation. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

76. **% OTHER OPERATING:** The percentage of total expenditures budgeted for all other operating expenditures in the district. Other operating expenditures include expenditures for support services, pupil transportation, food services, and cocurricular activities. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

77. **% NON-OPERATING:** The percentage of total expenditures budgeted for non-operating expenditures in the district. Non-operating expenditures include capital outlay expenditures not made from fund 600, the capital projects fund; debt service expenditures; and ancillary services expenditures. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

78. **TOTAL OPERATING EXPENDITURES:** The sum of all expenditures budgeted for the operation of the district. The operating expenditures are a subset of the total expenditures; they do not include debt service, capital outlay, or ancillary services. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

79. **TOTAL OPERATING EXPENDITURES PER PUPIL:** Total operating expenditures divided by total students. *(Sources: PEIMS, 030, 110)*

80. **TOTAL INSTRUCTIONAL EXPENDITURES:** The sum of budgeted expenditures for all activities dealing directly with the instruction of pupils, including instruction through the use of computers. *(Source: PEIMS, 030)*

81. **TOTAL INSTRUCTIONAL EXPENDITURES PER PUPIL:** Budgeted instructional expenditures divided by total students. *(Sources: PEIMS, 030, 110)*

82. **% REGULAR EDUCATION:** Expenditures budgeted for the regular education program expressed as a percent of total instructional expenditures. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

83. **% SPECIAL EDUCATION:** Expenditures budgeted for the special education program expressed as a percent of total instructional expenditures.

See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

84. **% COMPENSATORY EDUCATION:** Expenditures budgeted for the compensatory education program expressed as a percent of total instructional expenditures. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

85. **% BILINGUAL/ESL EDUCATION:** Expenditures budgeted for the bilingual education and ESL programs expressed as a percent of total instructional expenditures. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

86. **% CAREER AND TECHNOLOGY EDUCATION:** Expenditures budgeted for the career and technology education program expressed as a percent of total instructional expenditures. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

87. **% GIFTED AND TALENTED EDUCATION:** Expenditures budgeted for the gifted and talented education program expressed as a percent of total instructional expenditures. See *Exhibit C* in the *Endnotes* for a technical description of this item. *(Source: PEIMS, 030)*

DATA SOURCES

Data sources are arranged in alphabetical order by the abbreviations used in the *Item Definitions* section.

CPTD, SELF REPORT: The *Comptroller's Property Tax Division 1994 Self Report.* This report contains local tax roll assessed values for property, levy amounts, and tax rate information for all school districts with taxable property. *Item 62; Exhibit 20.*

CPTD, STUDY: The *Comptroller's Property Tax Division 1994 Property Value Study*, July 1, 1995. This study provides local tax roll property values as of January 1, 1994 for each district by category of land use. The comptroller's re-evaluated values by category of land use are also provided. *Items 61, 62; Exhibits 19, 20.*

DIVISION OF EDUCATOR ASSESSMENT AND APPRAISAL: A Texas Education Agency division that is responsible for developing and managing assessment programs for evaluating candidates' preparation for certification including the Examination for the Certification of Educators in Texas (ExCET). *Exhibit 17.*

DIVISION OF PERFORMANCE REPORTING: A Texas Education Agency division that is responsible, as part of its function, for determining the accreditation status for school districts each year. Computer programs are used to analyze TAAS results, dropout rates, attendance rates, and college admission data in order to determine accreditation status. See the TEA publication *Accountability Manual: The 1995 Accountability Rating System for Texas Public Schools and School Districts* for more information about the 1995 accountability criteria and standards. Accreditation status in this publication was current as of October 1995. *Item 1; Exhibit 12.*

FALL SURVEY OF PUPILS: The *Fall Survey of Pupils in Membership* taken in October 1989. This report provided a one day head count of the total number of students enrolled on the first Monday of October each school year. Counts of students were collected by campus, by grade, by ethnicity, by gender, and by population type (either regular or special education). This report was discontinued after the 1989–90 school year. Beginning with the 1990–91 school year, counts of students were collected through PEIMS. *Item 5.*

FINANCIAL AUDIT REPORT: TEA data files created from reports submitted to the TEA by auditors hired by local districts. The December 1994 reports used in this edition reflect district audited financial data from the 1993–94 school year. In addition to fund balance information, these reports provide total outstanding debt for bonds and loans, delinquent tax information, and revenue and expenditure amounts. School-level information is not provided. *Items 69, 70.*

FOUNDATION MASTER: A TEA data file that contains detailed information about state funding amounts and calculations for each entity receiving state dollars under the Foundation School Program. *Item 63.*

ORGANIZATION MASTER FILES: TEA data files containing basic organizational attributes about schools and school districts, including name and identification number, county name and number, Education Service Center region, State Board of Education district, type of district (regular FSP, special statutory, or state-administered), and mailing address. *Items 2, 3; Exhibits 1–3.*

PEIMS: Information in this document from the *Public Education Information Management System* was reported either in the spring (submission 3) of the 1993–94 year, or in the fall (submission 1) of the 1994–95 year. In submission 3 districts reported year-long student information. Submission 3 was due to the agency by July of 1994. In submission 1 districts reported data as of October 28, 1994. The budgeted financial data reported at that time was for the entire 1994–95 school year. All record types described below were received in submission 1 of school year 1994–95 with the exception of record type 400, which is from submission 3 of school year 1993–94. For more information about the PEIMS reporting requirements see the 1994–95 *Public Education Information Management System Data Standards.*

030: BUDGET AMOUNTS: Amounts budgeted by the district, or campus if appropriate, reported by fund, function, object, and in some cases by program. *Items 64–68, 70–87; Exhibits 19, 21–24.*

040: STAFF DEMOGRAPHICS: Information about each employee's gender, ethnicity, years of experience, and post-secondary degree. *Items 43, 47–49, 51–54; Exhibit 16.*

050: EMPLOYMENT CHARACTERISTICS: Information for each employee such as tenure and full-time equivalency status, and employing district identification number. *Items 31–38, 44, 50.*

060: PAYROLL: The payroll amounts paid to each employee. Both base pay and any supplement amounts are reported by fund, function, object, and program. *Items 39–42; Exhibits 15, 18.*

081: PERMIT: The type of permit, issue date, role of the individual teaching under the permit, and permit subject area. *Item 46.*

090: RESPONSIBILITIES: The duties performed by each professional employee. Districts report each class schedule for the employees who are teachers. *Items 32–38, 45, 50, 55–60; Exhibits 15, 18.*

110: STUDENT ENROLLMENT: Enrollment information about each student, including the student's grade, economically disadvantaged status, and indicators of the special programs in which the student participates. *Items 2, 4–14, 44, 45, 61, 63, 65, 79, 81; Exhibits 1, 4–7.*

201: BASIC DROPOUT DATA: Last known information about a dropout; last campus of enrollment, grade level, special education indicator, economically disadvantaged indicator, and exit reason. This record also contains demographic information about the dropout such as gender, ethnicity, and age. *Item 16; Exhibits 7–9.*

202: BASIC GRADUATE DATA: Information about each graduate, including the date of graduation, college plans, and whether or not the graduate earned an advanced seal on his or her transcript. *Items 17, 27, 28; Exhibit 7.*

400: BASIC ATTENDANCE DATA: Information about each student for each of the six, six-week attendance reporting periods in the year. For each student, for each six week period, districts report grade level, number of days taught, days absent, and total eligible and ineligible days present. *Items 15, 16.*

SAT/ACT FILE: With permission from public school districts, a file was created by the TEA from Scholastic Aptitude Test (SAT) scores released by the College Board's Admissions Testing Program and from ACT scores released by the American College Testing Program for Texas graduating seniors. Both testing programs typically release summary test score statistics to the TEA, the media, and the public each August for Texas seniors who graduated during the previous school year. However, the more detailed data linking students' scores to campuses and districts (which are used to create the TEA file) typically become available later in the calendar year. Thus, with this publication schedule, the test scores in this document are for 1993–94 graduating seniors. *Items 27–30; Exhibits 13, 14.*

SPECIAL EDUCATION CO-OPS: An annual TEA data file maintained by the division of Special Education which indicates for each district whether or not the district is a member or fiscal agent of a special education cooperative, the type of district, how many members are in the cooperative, and if applicable, the cooperative name. *No item number; indicator that follows district name.*

TAAS: The Texas Assessment of Academic Skills test results for reading, writing, and mathematics summed across grades 3 through 8 and 10 from the spring 1995 test administration. The performance of students who were not enrolled in the district as of October 28, 1994 are not included in the results published here. Also, the results of students receiving special education services have been excluded. TAAS test files contain percent passing by grade and subject and can be further analyzed by several characteristics of the students tested. *Items 18–26; Exhibits 10, 11.*

ENDNOTES

ACADEMIC EXCELLENCE INDICATOR SYSTEM (AEIS): A set of indicators mandated by Texas statute to emphasize student achievement for purposes of accountability as well as recognition. *Exhibit A* lists the 1994–95 indicators and notes the corresponding *Snapshot* item numbers for the indicators included in this document.

ASSESSED VALUATION: The locally assessed value of property that a district actually taxes. Property values are assessed by county appraisal districts, not the school districts. Assessment practices can vary from district to district; that is, two properties of equal worth may not be appraised at the same value in two different districts. District practices in exempting property from taxation also vary. TEA receives information about locally assessed valuation from the Property Tax Division of the Comptroller's Office of Public Accounts.

AVAILABLE SCHOOL FUND: The Available School Fund (ASF) was constitutionally created in 1876. It consists primarily of earnings from the Permanent School Fund and taxes dedicated to the fund by the state constitution. Most of the ASF revenue is distributed to local school districts on a per capita basis which is set by the State Board of Education using annual earnings estimates for the fund. The per capita apportionment to school districts in 1994–95 was $367 per ADA. The ASF also pays for school textbooks.

AVERAGE DAILY ATTENDANCE (ADA): Student attendance information is reported for the three six-week periods in the fall and the three six-week periods in the spring through the *Public Education Information Management System (PEIMS)*. For each district, full-year ADA is calculated by summing the ADA for each six-week period and dividing by six.

CAMPUS TYPE: Campuses are divided into types according to the range of grades offered as reported to the TEA. The grid in *Exhibit B* shows the possible combinations of low and high grades for each of the campus types. For example, a campus offering a low grade of 5, found along the left edge of the grid, and a high grade of 6, found along the top edge of the grid, is classified as a middle school. A campus offering only grade 9 (both the low and high grade) is a high school.

COUNTY EDUCATION DISTRICT: Senate Bill 351 established a second taxing entity to replace the local district in generating revenue for the portion of the Foundation School Program allocation known as the Local Fund Assignment (LFA). County Education Districts (CEDs) were created to equalize the wide range of district property

tax bases for school finance purposes. The 188 CEDs, which included one or more counties, generated and distributed revenue to school districts within each CED.

However, they existed for only two school years (1991–92 and 1992–93). In 1992, the Texas Supreme Court ruled CEDs to be unconstitutional and they were dissolved effective with the 1993–94 school year under Senate Bill 7.

ETHNICITY: Counts of students and staff are collected by major ethnic group. Counts of student enrollments and staff by ethnic group are derived from the fall 1994 PEIMS collection. These major ethnic groups are African American, Hispanic, white, Asian/Pacific Islander, and Native American. In this publication "other" is presented as the sum of Asian/Pacific Islander and Native American.

EXPENDITURE FUNCTIONS: An expenditure function designates the purposes for which expenditures are made. Function codes used by school districts are outlined in section CDE-403 of *Bulletin 679, Financial Accounting Manual.* Functions for which money can be spent are:

11 Instruction;
21 Instructional Administration;
22 Instructional Resources and Media Services;
23 School Administration;
25 Curriculum and Instructional Staff Development;

36 Cocurricular/Extracurricular Activities;
37 Food Services;
41 General Administration;
42 Debt Services;
51 Plant Maintenance and Operations;
52 Facilities Acquisition & Construction;
75 Data Processing Services; and
81 Community Services.

Exhibit C lists the function codes included in the revenue and expenditure items found in the *District Detail* section.

EXPENDITURE OBJECTS: An expenditure object identifies what was purchased. Object codes are outlined in section CDE-409 of *Bulletin 679, Financial Accounting Manual*. Objects for which money can be spent are:

6100 Payroll Costs;
6200 Professional and Contracted Services;
6300 Supplies and Materials;
6400 Other Operating Expenditures;
6500 Debt Service; and
6600 Capital Outlay.

Exhibit C lists the object codes included in the revenue and expenditure items found in the *District Detail* section.

FULL-TIME EQUIVALENTS: All staff counts are shown in terms of full-time equivalents (FTEs), a measure of the extent to which a person occupies a full-time position. For example, a teacher working a full day for the entire school year represents one FTE, a full-time teacher working one semester represents ½ FTE, and a teacher carrying a half load for the full year represents ½ FTE.

FTE apportionments apply to both part-time and full-time staff performing multiple duties. In cases where a person performs multiple tasks, portions of that person's FTE are assigned according to the time spent at each duty. For example, a full-time person employed half the time as a teacher and half as an administrator would be counted as a 0.5 administrator FTE and a 0.5 teacher FTE.

GUARANTEED YIELD: In 1994–95, this component of the Foundation School Program guaranteed districts $20.55 per student, per penny of tax effort levied by the school district. The school district tax effort is that tax rate adopted by the district. Regardless of the portion of the $20.55 the local district is able to raise through a penny of tax effort, the state will contribute the rest, up to a total of $20.55. Districts able to generate $20.55 per student, per penny of effort on their own receive no state guaranteed yield funds. The guaranteed yield is also referred to as the tier 2 of the Foundation School Program.

LOCAL FUND ASSIGNMENT: The portion of the Foundation School Program allocation, as determined by state formulas, that is assigned to the district to raise. In 1994–95, districts wishing to participate in the FSP were required to levy a property tax of $0.86. While the tax rate for the LFA is fixed for all districts, the dollar amount of the LFA, or local share, varies with the district's property wealth. The poorer the district, the smaller the LFA and the greater the amount of state aid.

PEIMS: The *Public Education Information Management System* is the primary means through which the Texas Education Agency collects information on the staff, students and finances for all schools and school districts in the state.

STAFF CATEGORIES DEFINED BY ROLE ID: Staff information from the fall 1994 PEIMS responsibility records was aggregated into categories using the reported role identifiers. *Exhibit D* on page 364, lists this detail.

STATE BOARD OF EDUCATION MAP OF DISTRICT BOUNDARIES: The map in *Exhibit E* on page 364, illustrates the 15 SBOE district boundaries. Members of the SBOE are identified on page *iii* of this document with their district number that corresponds to this map.

TUITION TRANSFERS: Expenditures that are budgeted by districts for the cost of sending students to other districts for instruction. Because the transferring district does not count the enrollment of transferred students, including the ex-

019	Physician
021	Recreation Therapist
022	School Nurse
023	School Psychologist
026	Speech Therapist
028	Teacher Supervisor
032	Vocational Education Coordinator
041	Teacher Facilitator
042	Teacher Appraiser
054	Department Head
055	Registrar
056	Athletic Trainer
058	Other Campus Professional Personnel
080	Other Non-Campus Professional Personnel

The FTEs of Adult Basic Education staff or staff employed by special education cooperatives are not included in the information presented in this document. Adult Basic Education staff are identified as having either Adult Basic Education service codes or as being paid from fund codes 311 or 401, meaning Adult Basic Education Fund, or the 800 fund code series, indicating Trust and Agency Fund. Staff are identified as participants in a cooperative if their assigned campus number belongs in a district different from their employing district, or if they are reported with a campus number 701. Only the portion of a person's total FTE amount associated with the campus in another district (or with the 701 record) was counted as cooperative.

penditure distorts per pupil amounts. Prior to 1992–93, amounts budgeted for tuition transfers were excluded from the expenditure data presented in this publication. Beginning in 1992–93 the TEA no longer required districts to report the object code that enables these budgeted expenditures to be identified. Therefore, beginning with the 1992–93 edition, tuition transfers have not been excluded from expenditures presented in *Snapshot*. In affected districts, per pupil expenditures may appear to be high as a result.

COMPLIANCE STATEMENT

Title VI, Civil Rights Act of 1964; The Modified Court Order, Civil Action 5281, Federal District Court, Eastern District of Texas, Tyler Division

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

1) acceptance policies on student transfers from other school districts;
2) operation of school bus routes or runs on a non-segregated basis;
3) nondiscrimination in extracurricular activities and the use of school facilities;
4) nondiscriminatory practices in the hiring, assigning, promoting paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;
5) enrollment and assignment of students without discrimination on the basis or race, color, or national origin;
6) nondiscriminatory practices relating to the use of a student's first language; and
7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

Title VII, Civil Rights Act of 1964; Executive Orders 11246 and 11375; Title IX, 1973 Education Amendments; Rehabilitation Act of 1973 as amended; 1974 Amendments to the Wage-Hour Law expanding the Age Discrimination in Employment Act of 1967; and Vietnam Era Veterans Readjustment Assistance Act of 1972 as amended in 1974.

It is the policy of the Texas Education Agency to comply fully with the nondiscrimination provisions of all federal and state laws and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action; or be denied any benefits for participation in any programs or activities which it operates on the grounds of race, religion, color, national origin, sex, handicap, age, or veteran status (except where age, sex, or handicap constitute a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency makes positive efforts to employ and advance in employment all protected groups.
